

## **Milad Alam, MD, an Orthopedic Surgeon with Florida Spine Associates**

Get to know Orthopedic Surgeon Dr. Milad Alam, who serves patients in Atlantis, Florida.

**New York City, New York Apr 26, 2022 ([IssueWire.com](https://www.issuewire.com))** - A highly trained orthopedic surgeon, Dr. Alam sees patients at Florida Spine Associates in Atlantis, Florida. He has specific training and interest in minimally invasive surgical techniques and motion preservation (non-fusion) surgeries for the adult degenerative spine.

“My primary role as a spine surgeon is to educate my patients regarding their specific conditions and potential treatment options. I am dedicated to working directly with my patients in creating a customized non-surgical or surgical plan for their individual needs and lifestyles. My goal is to provide my patients with extremely compassionate, courteous, and timely care combined with cutting-edge technology and surgical expertise” expressed the doctor.

With a broad educational background, he obtained his Bachelor of Science degree in Psychobiology from UCLA, graduated summa cum laude, and completed his medical school training at the UC San Diego School of Medicine. Following medical school, he was selected to complete his residency in orthopedic surgery at Jackson Memorial / University of Miami hospital.

Subsequently, Dr. Alam completed a combined orthopedic and neurosurgical spine fellowship at the University of Southern California (USC) Spine Center with a focus on minimally invasive and robotic spine surgery for the treatment of adult degenerative conditions. He also complimented his fellowship training as a visiting spine fellow at Bern University Hospital in Switzerland.

Passionate about his profession, the doctor is board-certified in orthopedic surgery by the American Board of Orthopedic Surgery (ABOS). The ABOS is an organization with the goal of establishing educational and professional standards for orthopedic residents and surgeons as well as evaluating the qualifications and competence of orthopedic surgeons.

After completing his graduate medical training, he served as the Chief of Orthopedic Spine Surgery at Riverside Orthopedic Institute where he helped develop a comprehensive program offering surgical and non-surgical treatments for degenerative neck and back conditions. Additionally, he served as an Associate Director of Spine Surgery at Hudson Regional Hospital where he played an integral role in developing an award winning Robotic Spinal Surgery program.

Professionally, Dr. Alam has presented at major national spine conferences and written multiple peer-reviewed journal articles about spine conditions and surgical techniques. He is an active member of multiple professional societies, including the American Academy of Orthopedic Surgeons, AOSpine, and the North American Spine Society.

Orthopedic surgery is the branch of surgery concerned with conditions involving the musculoskeletal system. Orthopedic surgeons use both surgical and non-surgical means to treat musculoskeletal trauma, spine diseases, sports injuries, degenerative diseases, infections, tumors, and congenital disorders.
