

Simone Selkirk Live Announces their new Music Event Collaboration bringing 80's Rock back to Live Event Arenas

Simone Selkirk Live has been working hard to lock in Live Music events to secure a 2022 relaunch of the live music scene in Australia and further afield.

Sydney, New South Wales Apr 19, 2022 (IssueWire.com) - Simone Selkirk Live has been working hard to lock in Live Music events to secure a 2022 relaunch of the live music scene in Australia and further afield.

After the Covid-19 Pandemic lockdowns limiting venue numbers and making it impossible for live acts to tour, Simone Selkirk Live is thrilled to announce a line-up of live music events that will bring the 80's rock band era back to life for live audiences.

[Simone Selkirk Live](#) knows it has been years since the likes of Guns 'n' Roses; Bon Jovi; Kiss; Megadeath; Aerosmith; Red Hot Chilli Peppers and Green Day have toured in Australia and created a spectacular for live fans.

The rollout of the full lineup of 80's bands will be announced by Simone Selkirk Live shortly, but for now Simone Selkirk Live wanted to make sure fans were aware to watch this space.

Some logistics remain outstanding for Simone Selkirk Live, namely which venues will have the needed capacity for some of the bigger band acts that are coming out. Covid-19 has caused a backlog of historic events that had to be postponed and are only now filtering through the arenas and live event venues meaning some live music gigs remain in the pipeline for venue availability.

It has been a while since Simone Selkirk Live has seen this level of intense live event activity and Simone Selkirk Live is excited the industry is back buzzing with live music events lined up for the pipeline.

Time for the '80s rock revival bands to hit the Australian stages and entertain the strong band of fans who have been starved of live music rock for the past couple of years.

The wait is not going to be for too much longer announcing Simone Selkirk Live, and the wait is going to be worth it for those fans who are in withdrawal for the classic 80's Rock Bands' live gigs!
