

## 13th Edition of International Conference on Catalysis Chemical Engineering and Technology

Orlando, Florida May 12, 2022 ([Issuewire.com](http://Issuewire.com)) - Magnus Group is proud and honoured to invite you to its leading congress in catalysis and chemical engineering, "[13th Edition of International Conference on Catalysis, Chemical Engineering and Technology](#)" (Catalysis 2022) which is going to be held in a **hybrid** format at **Orlando, Florida, USA** and **Virtually** during **October 21-22, 2022**.

The congress will be centered on the theme **“Assembling Trivial Keys in Catalysis and Chemical Engineering.”**

The Convention’s goal is to bring together scientists from academia and industry to present cutting-edge research on advancements in [Catalysis, Chemical Engineering, and Technology](#) in all of its major aspects, with a special emphasis on the recent trends. Plenary talks invited lectures, keynote sessions, oral presentations, and poster contributions will make up the two-day scientific programme.

Researchers, scientists, academicians, catalysis experts, chemical engineers, chemists, pharmacists, clinicians, and other field experts from all over the world will assemble at [CATALYSIS 2022](#) to debate and layout plans for important future facilities and to present the latest advances in Catalysis, Chemical Engineering, and Technology. The summit will have the opportunity to network and engage, talk, and exchange ideas with senior scientists and colleagues.
