Family medicine is a medical specialty devoted to comprehensive health care for people of all ages. The specialist is called a family physician or family doctor. A family physician is often the first person a patient sees when seeking healthcare services. They examine and treat patients with a wide range of conditions and refer those with serious ailments to a specialist or appropriate facility.

On a more personal note, Dr. Ahlawat is fluent in both English and French. He is an avid traveler. He thrives on learning and immersing himself in new experiences and cultures and cherishes these experiences as a means to better serve his community.
