

## CDE Asia showcases the 2022 model of Combo Alpha Smart at Excon 2021

**kolkata, West bengal May 31, 2022 ([IssueWire.com](https://www.issuewire.com))** - CDE Asia recently participated in Excon 2021, held at Bangalore International Exhibition Centre (BIEC) from 17th to 21st May 2022.

EXCON 2021 provided the ideal platform to meet representatives from industry giants, and establish new business alliances with investors and clients. We leveraged the huge reach of the exhibition to exhibit our latest advancements in sustainable technology, and communicate about how we are empowering customers with hassle-free, energy-efficient, and eco-friendly solutions to produce high-quality manufactured sand.

Mr. Manish Bhartia (Promoter and MD, CDE Asia), said: “Our participation in EXCON 2021 can be considered as a significant stepping stone in our goal to become the largest ESG-driven sand company and contribute to India's infrastructure progress.”

We took this prized opportunity to showcase the 2022 model of Combo Alpha Smart, from the company's flagship Combo platform - a patented invention that converts crusher dust into [Manufactured Sand](#) in various industry grades. It features a cutting-edge technology that cleans, grades, and recycles water on a single mobile chassis unit and produces 120tph of washed manufactured sand from quarry

dust. Combo Alpha and its smart variants promise high product recovery with an eye on sustainability.

Our subsidiary, Doctorsand also marked its presence in the event as the only brand and supplier of uniform quality, ethically sourced manufactured sand against the present sand market that is highly fragmented and dominated by local unreliable suppliers.

Attending the ceremony as an honoured guest, Mr. James Godber, Deputy Head of Mission (British Deputy High Commission, Bangalore) commented:

"It is heartening to see yet another UK-based infrastructure company that has evolved into an industry pioneer and leader. CDE Asia has put up exceptionally innovative product showcases at EXCON 2021 and I am excited about the possibilities they will open up in the future of sustainable technologies that provide clean, green solutions for a smarter future."

Also present at the event were CDE Asia representatives – Mr. Manish Madhogaria (CBO), Mr. Neeraj Jain (Vice President- Sales), Mr. Sanjay Singh (Vice President), and others.

We are deeply thankful to the organizers of the exhibition for providing industry players like us a chance to interact, discuss, network, and forge new relationships with prospective clients.
