

Daphodill: Author And Artist With An Ambition That Surpasses The Stars

Los Angeles, California May 10, 2022 (Issuewire.com) - [DaphoDILL](#) is an on the rise entrepreneur/recording artist from Mississippi. She specializes in Hip Hop and rap. Music has always been part of her life since a very young age. She started out with poetry. Poetry helped her to vent and express herself while she was dealing with depression. Eventually, her poetry turned into songs. Although dabbling in poetry she began her career more focused on the business side of things rather than becoming a musician. She fell in love with the sounds and began to create. She has not stopped since. In her recent single "[All Facts](#)" she linked up with one of the game's best producers, Zaytoven.

Not only is she making her mark in the music industry, she is also an amazing author. She wrote a book that touches on dealing with depression called "[Colors of Blue Shades of Black](#)". This book is now available online and in Barnes and Noble. DaphoDILL has also finalized an album that speaks on mental health with depression and anxiety. In her visuals, you can expect her to bring alive the rage about the topic and why many do not feel comfortable discussing their mental health and the stigma around it. DaphoDill is an all-around talented role model who loves to create and express herself. Make sure you check out her catalog and grab a copy of her book.
