

BDRSuite appoints InfoNet as a authorized partner to provide affordable backup services in Turkey

Carson City, Nevada Jun 3, 2022 ([IssueWire.com](https://www.issuewire.com)) - InfoNet has been a distributor in the field of Information and Cyber Security for more than two decades now. They believe BCP, DR, and Backup are very important domains in cyber security, and the increased ransomware and other advanced attacks have made Backups a must. This is the first time InfoNet will have a Backup and DR solution in their product range.

The partner has already done some SMB packages with their existing vendors as Managed Security Service Distributors (MSSD). They will add BDRSuite to this bundle and do some marketing activities in different cities of Turkey. Besides every aspect, the partner feels the market is price sensitive and BDRSuite will easily compete against other competitors.

This association is built to provide a reliable and affordable backup and disaster recovery solution in Turkey. InfoTech has signed up with the BDRSuite AcePartner program and is looking forward to a good journey.

Here is what Nagarajan Chandrasekaran, VP of Product Management & Marketing, BDRSuite has to say about this collaboration.

“We are happy to have InfoNet on board with us. BDRSuite’s comprehensive backup solutions, flexible licensing model, exclusive discounts, advanced marketing, sales, and technical training will enable our partner to create a profitable and successful business in Turkey. Anticipating an exciting journey”

About BDRSuite

BDRSuite is a comprehensive backup and disaster recovery solution designed to protect the data across diverse IT environments that include virtual (VMware, Hyper-V), physical (Windows, Linux, Mac), cloud workloads (AWS, Azure), and SaaS applications (Microsoft 365, Google Workspace). Our
