

Lindsey Architecture wins CPN Star Award for the Greensboro Science Center Zoo Expansion

Greensboro, North Carolina Jun 14, 2022 ([IssueWire.com](https://www.issuewire.com)) - [CPN of North Carolina](https://www.issuewire.com) recently awarded Lindsey Architecture with a coveted [Star Award](#) for its design of the Greensboro Science Center Zoo Expansion. Awarded in the \$10-\$25 Million Category, the award recognized the community impact and significance of the project, collaboration among the design team, and the functional and visual aesthetic of the design.

The expansion added approximately four (4) acres to the 22-acre site, providing new exhibits for flamingos, red pandas, pygmy hippos, okapi, cassowary, and a cat complex, which are new animals to North Carolina that require accommodations to assist with breeding and support long, healthy lives. On-site functions and spaces include a veterinary hospital, stream and pond improvements, and visitor wayfinding.

The Star Award honors project excellence among CPN member firms each year, and the jury-based selections are chosen on the merits and challenges of a project, owner satisfaction, and CPN member participation. Project team and CPN member firms include: Samet Corporation, Wescott, Small, & Associates, System Contractors, and SM&E.

The award was presented in person during CPN's Annual State Conference's Black Tie Gala in May. Emily Hinton, AIA, NCARB, principal, was in attendance to receive the award with fellow members of the project design team. "I'm thrilled the Greensboro Science Center Zoo Expansion project was recognized by CPN of North Carolina and the regional A/E/C community," stated Hinton. "It's an honor and a privilege to be able to work on projects such as this one that have an immense impact on the local community."

About Lindsey Architecture

Lindsey Architecture is an award-winning, full-service architectural, planning, and interior design firm based in Greensboro, North Carolina, focused on making a positive impact across the southeastern United States. Founded on the premise that dedication to creative excellence, imagination, and innovation, tempered with common sense, professionalism, and financial stewardship, results in built environments that foster quality of life and work for its clients, Lindsey Architecture ensures successful outcomes through collaboration and thoughtful understanding of each client's vision and objectives. With a long track of creating spaces that achieve far more than simple function, they design places for people to achieve, succeed, and enjoy life through sustainable, integrated solutions across a broad range of focus areas, including industrial, education, workplace, municipal, parks and recreation, cultural and civic, and more.
