Nomad Entrepreneur: Secrets of Living a Borderless Life – How to Succeed in Doing Business Overseas

**Maastricht, Limburg Jun 5, 2022 ([IssueWire.com](https://www.issuewire.com))** - Nomad Entrepreneur and Consultant Hossam Afifi Releases His Debut Self-Help Book

Nomad Entrepreneur, Hossam Afifi recently came out with his debut book, 'Nomad Entrepreneur:

Secrets of Living a Borderless Life – How to Succeed in Doing Business Overseas’. The [book](#) is a delightful guide towards learning how to plan a successful business abroad, increase productivity drastically, manage time, acquire social skills, and get more involved in your new nation that will enable you to live the lifestyle of your choice.

The world is changing quickly, and local authorities release more regulations and restrictions daily. If you are mad at your society, politicians, and economic policies, as the author was a decade ago, this book will help you deal with all that has led to you being dissatisfied.

Most people limit themselves to society, country, laws, and regulations that they didn't choose. However, the internet, a globalizing world economy, and the developing world's emergence all present opportunities if they are willing to make simple changes in their lives.

The ongoing wave of digital nomads following the digital revolution has already changed the traditional concept of entrepreneurship. Cloud services augmented and virtual reality, artificial intelligence, and blockchains are just a few of the technologies that are transforming entrepreneurship and communication in our increasingly digitized world.

Using technology and working online to make money is not the ideal replacement for a stressed work environment. Instead, start your own business in a country of your choice and build your own community of high achievers who share the same goal. In our world of capitalism, nothing unifies people more than the dream of wealth.

There is no replacement for real human communication, especially in business, and the more people move towards technology, the worse it impacts their mental health.

From choosing your new nation to developing your management skills; from business ideas to structuring your successful business, the author will introduce you to a life of international proportions, building an empire of companies, finding love in exotic locations, and improving everything, from your health to your tax bill.

Geography is no longer an issue for those willing to follow the author's strategy that he built and used for success.

Hossam Afifi has been an entrepreneur for over 12 years, and he has a keen knowledge of what it is like to have to balance life and work.

In 2019, He founded Nomad Entrepreneur, a business consulting firm that has already helped thousands of entrepreneurs worldwide. Nomad Entrepreneur's YouTube channel became extremely popular among ex-pats and [digital nomads in Georgia](#) (country) in a matter of days.
