

Senior Protection Is Now Officially a Trusted Partner of Boom.health

It is with great pleasure to announce that Senior Protection is officially listed as a trusted service provider with Boom Health.

North York, Ontario Jun 3, 2022 ([Issuewire.com](https://www.issuewire.com)) - It is with great pleasure to announce that [Senior Protection](#) is officially listed as a trusted service provider with Boom Health. A premium app developed to help families manage their loved ones' home care, bundled together with the most trusted services across Canada and soon to be in the U.S.

Boom Health can take the stress out of organizing care, eliminating multiple calls, and seeking out the different services that are needed for your loved ones' home care. Senior Protection is proud to provide the service listed under the Emergency category and is the [official supplier of medical alert devices](#) and life safety monitoring for Boom users across Canada.

The app can be found on both: The App Store for Apple users as well as Google Play for Android users. Anyone downloading the app will have completed and expedited access to the important categories listed in Boom. The idea of having your loved one's care completely accessible through one trusted platform (Boom) is appealing to families across Canada. Cost-sharing is only one of the benefits family members are finding that Boom helps remove the stress in making important decisions and cost-related services for your loved one.

The following categories can be found in the Boom app to help navigate the care for any senior by family members, caregivers, or the seniors themselves.

Mike Chaudhary, CEO of Senior Protection Says:

“[Senior Protection](#) is extremely privileged for being part of such a great solution. Helping families across Canada manage their loved one’s safety, in a quick, easy, and reliable way through Boom.

Boom is currently working with trusted partners from some of the most established names in the health industry and technology sector. New services and areas are continuously being added so Boom can help more families & provinces across Canada.”

About Senior Protection:

Senior Protection is a division of Alarm Guard Security. Proudly protecting Canadians for over 19 years across Canada. They provide the best-in-class medical alert devices for seniors. The advanced Personal Emergency Response system comes with push-button & easily uses a two-way communication system. Quickly connects to a trained operator who can contact emergency services to provide immediate assistance, [GPS alert & fall detection](#). The Personal Emergency Response System can possibly save your life or help reduce the severity of an injury and helps seniors remain safe and independent at home.
