

SpaceGate Successful Dinner Gala Event In Thailand

SpaceGate's has successfully held the Grand Gala Conference in Marriot Marquis Hotel, Bangkok, Thailand, on May 22, 2022.

Singapore, Singapore Jun 1, 2022 (IssueWire.com) - [SpaceGate Technologies Inc](https://www.issuewire.com/SpaceGate-Technologies-Inc) launched a prestigious Grand Gala Conference in Thailand, Bangkok, Marriott Marquis Hotel. The successful event was graced by Spacegate's International communities, countries from Vietnam, Korea, Thailand, Singapore, Malaysia, Italy, and Australia. Headed by the SpaceGate management team, the vision of this company has set excitement in the world of blockchain technology. SpaceGate Technologies Inc has provided people with hope for a better future.

After launching its new AI proprietary yield farming system which is YOLOS (Yield Optimal Leverage Operating system), SpaceGate has continued to build its roadmap to fulfill the company's vision.

First, line, the company is developing its SpaceGateDex and SpaceGateDao.

SpaceGateDex is a cross-chain decentralized exchange (DEX) that lets users from multiple chains to swap, provide liquidity and receive bribes from voting for liquidity pools emissions with low fees.

With the success of SpaceGateDex and SpaceGateDao, SpaceGate also launched its own Genesis NFT Collection which consisted of 4 different types; Identities, SpaceGate, Spaceforce, and Citizenship. Each type of NFT will let you wander around the entire metaverse but with boundaries for non-citizens. Every NFT is exceptional on its own with a diverse rarity with only 4,444 can be minted correspondingly.

Finally, this company presented the first in the world Decentralize Finance Gaming Metaverse (De-Gamefi Metaverse). By applying Gaming metaverse and NFTs into the Defi Space, owners of Spacegate's Genesis NFTs will have the access to the top and finest Defi protocols examined by YOLOS. How will it work? YOLOS will search for tested and confirmed farms and will input them into the De-gamefi metaverse wherein your holder (citizen) can communicate to that specific DeFi procedure NPC and learn all about it immediately. If the risk-reward is acceptable for you, you can directly place funds through your account and begin your defi journey.

Management Team of SpaceGate Technology Inc

The management team of SpaceGate Technologies consists of CEO Graeme Gary Hearn, supported by CTO Raymond Williams, and COO Philip Broadbent, together with a various team of experts unified by their shared desire for this industry. The company's mission is to bring advanced technology to the market with the use of yield farming AI structure and the first-ever De-GameFi Metaverse. The management has been grateful for the support of the people who attended the Gala Event. It wasn't a success without the passionate people in place.
