

# The House Manager Customers Weigh in On New Subscription-based Handyman Services

New Home Improvement Service In Houston Texas

**Houston, Texas Jun 16, 2022 ([Issuewire.com](https://www.issuewire.com))** - The House Manager, which recently launched its new subscription-based handyman services in Houston TX, is receiving positive feedback from customers. Sarah Cuddy, one of its first customers to enroll, gave a new service a glowing review. Cuddy, who previously used [The House Manager's home improvements of Houston](#) services for a variety of one-time projects, signed up after learning about the subscription plan from a friend.

“I lead a really busy lifestyle,” she said. “I’m a business owner and I have a lot of activities that I’m really interested in. And the one thing I’m just not interested in at all is doing things like cleaning the dryer vent, touching up my paint, or winterizing my home.” Since Sarah was already using The House Manager for these types of tasks and projects, moving to the subscription plan was a natural next step.

The plans start at \$79.99 per month for various handyman services in Houston. They include one, two, or three hours of work each month for things such as changing light bulbs, [painting](#), hanging pictures, installing new shelves, [drywall repair](#), [electrical](#), and more. Customers have access to an online member portal where they can easily manage their accounts and any service requests.

Cat Theriot, founder, and owner of The House Manager describes the new monthly subscription plan as a way to put your chores on autopilot.

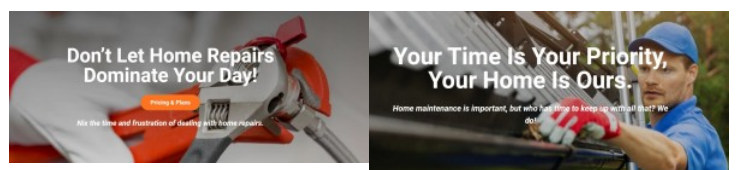

Cuddy agrees. “Having a handyman come here every single month, no matter what, means that I can just put the ‘honey-do’ list together, handyman shows up, and the list gets done. And I don’t have to waste my really limited weekend hours on doing all those nasty little chores. The House Manager does them for me,” she says. “I’m telling you, don’t wait to get your subscription service.”

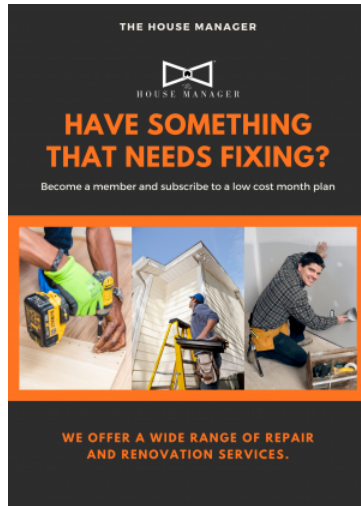

With subscription handyman services, Houston TX homeowners have an alternative to sacrificing their valuable time on home maintenance tasks and chores. They have peace of mind knowing that projects around the house will be done without the stress of finding and scheduling a contractor. The House Manager customers who take advantage of the membership plan also receive a biannual home inspection. If any repairs are needed, they only pay the cost plus a 10% management fee.

The House Manager thoroughly vets its vendors and works only with reputable companies to ensure its customers get quality work from qualified, reliable contractors. Rates are affordable and routine maintenance can save homeowners hundreds or even thousands of dollars by preventing small issues from becoming big problems.

Homeowners interested in learning more about subscription plans for [handyman services in Houston TX](#) can visit The House Manager Website or call 1-832-915-0207.
