

## The ideal Microsoft 365 Backup Solution by Green Cloud

www.greencloudhosting.co.uk

**Manchester, United Kingdom Jun 20, 2022 ([IssueWire.com](https://www.issuewire.com))** - You already know how important it is to back up your Microsoft Office data: from important documents to team brainstorming sessions, a backup of your O365 data, which includes Exchange, SharePoint, OneDrive, Groups, and Teams, is required. Microsoft Office is a collection of integrated apps that includes Exchange, Teams, OneDrive, SharePoint, and others. Each of these programmes generates different data types: a SharePoint file is saved differently than an Exchange email. However, researching [Microsoft 365 backup](#) apps can be time-consuming and tiresome.

**Country, City, (13th June 2022)** Although Microsoft Office 365 offers basic backup and recovery options but doesn't provide a comprehensive backup of all your Microsoft 365 data. And that's the reason why Green Cloud Hosting itself develops a Microsoft (Office) 365 backup platform. Our [Microsoft 365 backup solution](#) brings in a comprehensive backup of all your Microsoft 365 data. There's no requirement for on-site hardware. Our automated Microsoft 365 Backup service makes sure that your Exchange, OneDrive, and SharePoint data is completely backed up with quick and easy recovery options. This secures and safeguards your Microsoft 365 data from retention policy gaps and accidental and malicious deletion.

**Green Cloud** Hosting's services can help you save money on Microsoft 365 licencing and offer you the benefits of efficient data storage, perfect communication, and next-level security while also helping your business grow. You will gain rapid and reliable connectivity by streamlining your operations and processes and improving security, and protecting yourself from cyber threats. Also, enable secure and flexible remote working and boost your employees' performance by driving a culture of flexibility and innovation. Since 2011, we've been delivering award-winning backup services.
