

**CorporatEdge HT House, Delhi is an ideal flexi workspace that provides seamless support to lawyers and law makers.**

# CORPORATEDGE

Inspiring Workplaces

**Delhi, India Jul 2, 2022 ([Issuewire.com](https://www.issuewire.com))** - Having successfully fulfilled a prominent gap in the service deliverables of flexibility and transparency being offered in the business centre domain; CorporatEdge now turns its attention towards providing specialized flexible workspaces for lawyers and attorneys in New Delhi, with a premium office space situated in the prime HT House, Connaught Place locale. Whilst both its New Delhi and Gurgaon locations provide ideal spaces for the purpose of conducting meetings, deliberations, or arbitrations, CorporatEdge HT House, Connaught Place is ideally located, just minutes away from all main government offices, High Courts, and the main financial and commercial hub of Delhi, Connaught Place.

Business Centres and serviced office spaces have already proved to be the need of the hour for many business establishments, especially in the post pandemic era. Businesses now prefer the flexibility of a serviced office infrastructure since they are not only cost effective with ease of scaling up or down but also provide additional opportunities for business setup, networking, and development. Considering similar requirements of the law fraternity and bearing in mind that legal professionals have been successfully working in shared office spaces long before the concept became popular, CorporatEdge now offers smart workspace solutions to help lawyers increase efficiency and flexibility at a lower cost.

For those working in the field of law, time equals money. Often administrative and set up costs cannot be made a priority but are still a necessity. Furthermore, lawyers are used to collaborating among themselves in order to benefit clients. There are also independent law practitioners in need of satellite offices. Lawyers also have very specific needs and challenges in comparison to a traditional business set up – privacy, peace, and quiet, meeting rooms for client meets and deliberations as well as storage requirements are a few.

With this in mind, CorporatEdge offers spaces with a unique set of advantages that will help lawyers and law firms with substantial cost savings via lower rents, ready to move workspaces that are fully furnished and include modular layouts with customized partitioning, carpeting, office furniture, and fixtures, and basic electricity with 24/7 power back-up facility. Core essentials like communication services, low-voltage cabling, security, guest lounge and concierge, mail and package handling, cafes and kitchen areas, business equipment, and IT infrastructure including high-speed Wi-Fi are also a part of the equation. Not to mention, the added networking and collaboration opportunities through referrals and word of mouth are possible through shared workspaces at CorporatEdge centres.

CorporatEdge HT House, Connaught Place is located in a premium corporate building in the main financial and commercial hub of Delhi, Connaught Place. Spread over 20,000 sq. ft. space with 232 work desks, 35 office suites, 3 meeting rooms, and providing a comprehensive array of office support

services it offers seamless support and dynamic environs for all business needs.

“CorporatEdge strives to make working efficiency as high as possible for every professional. The benefits of shared office space for lawyers will prove highly fruitful for law practice professionals in today’s highly competitive market. We are excited to see the law fraternity make the most of our premium yet affordable, serviced coworking spaces in Connaught Place.”; says Monaah M Shuklla, Founder & CEO, CorporatEdge Serviced Offices.
