

Ditto Foods and FullCircle26, Inc. team up to provide a long-term solution to democratizing our food system.

Ready to get started on your Hydroponics journey, but prefer not to start at germination? Here is a new option we are offering: pre-sprouted seedlings!

Fox Lake, Illinois Jul 25, 2022 ([Issuewire.com](https://www.issuewire.com)) - Ditto Foods, LLC., one of Chicago's newest innovators in hydroponic vertical farming, today announced that it has partnered with *FullCircle26 Inc. (FC26I)*, North America's sales, distribution, service, and training organization for OPCOM Hydroponic Growing systems, an all-in-one hydroponic growing system designed for high yield in-home or

commercial growing year-round. Ditto Foods LLC. and FullCircle26 Inc. have partnered to bring nutrient-rich hydroponically grown seedlings to individuals, school districts, and commercial food businesses in an effort to bring sustainability and consistency to how we grow our food no matter where you are in the United States.

Ditto Foods and Full Circle26 Inc have the capacity to provide a long-term solution to democratizing our food system. With the ability to ship seedlings to every corner of the United States.

Derek Drake, CEO/Head Farmer (Ditto Foods) added, "This partnership with FullCircle26 Inc. is extremely exciting and important in creating access regardless of zip code. Food insecurity is a major issue in this country, and we are poised to do our part in bridging that divide. By providing our hydroponically grown seedlings, we are taking the most difficult part of growing food away. We have a 98% germination rate. This sort of success is not typical in traditional farming. Our food system is not stable and now everyone has the opportunity to grow their own food with this partnership."

Shelley Mathews CEO/Founder (FC26I) continued, "This partnership aligns perfectly with our 3D Model of Sustainable™ - growing plants hydroponically for education, food sustainability and enterprise, giving us access to food on a continuous basis which we know is always a challenge. Now with Ditto Foods seedlings, we jumpstart your hydroponics growing experience moving directly into stage 2 allowing you to have access to your own food source sooner."
