

## Goodwill Wealth Management-A Plethora of Trading Opportunities

**Chennai, Tamil Nadu Jul 27, 2022 ([Issuewire.com](http://Issuewire.com))** - Goodwill Wealth Management is an online platform that allows people to trade easily in the stock market. Customers have an array of trading opportunities on Commodity, [Equity](#), Currency, Derivatives, [Mutual Funds](#), and Exchange Traded Funds as they need and please. Goodwill, a reputable brokerage firm, provides customers to trade in the market in new and creative ways. In a competitive arena like trading, Goodwill has established itself as a leading platform for trading and investment solutions and opportunities.

Can you believe it? One of the main highlights of Goodwill is its Free Trading and Demat account opening. It is easy to [Open a Demat Account](#) with Goodwill as it takes just 5 minutes and offers the [lowest brokerage with no hidden fees](#) or charges. More features include Zero Deposit for account opening, easy online fund transfer with same-day payout, and transfers credited on the same day.

Goodwill also has a mobile and desktop application known as [GIGA](#). GIGA enables customers to trade on the stock exchange through the internet. The App incorporates the latest technology and contains features that make it convenient for the customers to trade. More benefits include secured trading with biometrics login, trade charts and high-quality reports under subscription, and easy payments with Same Day Payout and Swipe to Trade.

Apart from providing excellent services in different trading and investment activities, Goodwill believes in putting its customers first. They understand the factors that affect the wealth and investment of their customers when it comes to financing. They understand the factors that affect the trading and investment of their customers when it comes to financing.

Recently, Goodwill has launched a product called [Discount Plus](#). It provides brokerage services at flat Rs.11 per order or 0.02 percent. Additional benefits like zero brokerage, access to world-class platforms, and multi-lingual support are also available. Discount Plus has a customised interface created for easy trading. It is also free of charge on both desktop and mobile.

Goodwill aims to make trading easy and comfortable for its customers. To facilitate this, it introduced a range of mobile-friendly apps. Their motto includes providing speed, reliability, and performance in all areas of their technology to facilitate smooth and safe trading. Goodwill provides many benefits, among which are advanced tools like charting, trading, technical analysis, and research-based calls. They also offer different types of value-added services and brokerage plans for both online and offline equity, commodity, currency, and other forms of trading.

### **The Best Part: Their brokerage charges are the lowest in the market!**

Goodwill focuses on the difference between wealth creation, preservation, and enhancement, and facilitates its customers with all. It assists the clients when it comes to making intelligent investment decisions. With experience of more than a decade, Goodwill is known for providing investors with personalized and swift services so the customers can make smart decisions.

Beginners might feel flabbergasted by the vast info available in this digital world. Goodwill helps them step by step by providing all the necessary knowledge and training first-hand.

As the world advances, so does Goodwill by guiding the clients in trading and investment. They have always provided the best platform for connecting customers to the market. They consistently offer live updates, detailed reports, and market insights. With Goodwill, trading is not only easy to access but also gratifying.

Goodwill staunchly believes in providing efficient, transparent, genuine services, and reliable service. They cater to their needs by providing benefits like Multi-lingual support, advanced trading software, technical videos, real-time charts, live chats, and free online and offline training.

Established in 2008 with only 3 offices, Goodwill grew to 75 in 2016, then to 100 in 2020. It has come a long way and managed to build a powerful client base centred on the satisfaction of its services. Goodwill has 750 trained professionals with 1,000 service points all across India. Their average day-to-day trading turnover is about INR 1,500 crores.

From NSE (National Stock Exchange), BSE (Bombay Stock Exchange), and MCX (Multi Commodity Exchange) award winner Goodwill, know that your investment and trading activities are handled by financial experts!
