

Launch of the the First XR All-Access DJ, Nightlife Project, Chaotic DJs

Olympic Gold Skateboard Medalist Nyjah Huston Partners with Festival & Nightlife Enthusiast Daniel Benlulu to Launch the First IRL/AR/VR All-Access DJ, Festival & Nightlife NFT Project, CHAOTIC DJS

Miami, Florida Jul 2, 2022 ([Issuewire.com](https://www.issuewire.com)) - *Founded by Olympic Skateboarder, Nyjah Huston, and Peeqglasses' Daniel Benlulu, with investment interests from Arizona Cardinals' head coach, Kliff Kingsbury, the Platform Gives Holders a Cutting-edge Virtual Reality Experience as DJs Perform Globally and Remotely on Massive Stages*

Chaotic DJs, a collection of 10,000 unique characters living in the virtual world, acting as all-access passes into a chaotic fantasy world, offering users an elevated experience through live avatar performances, ultimately uniting the DJ, festival, and music community worldwide.

The Co-founders Huston and Benlulu, alongside investors **Kliff Kingsbury (Head Coach for the Arizona Cardinals and New England Patriots Superbowl Champion)** and **Joseph Isaacoff (Real Estate and Business Owner, and Founder of the first Crypto Bank [JIC Bank](https://www.jicbank.com))**, have secured partnerships with internationally recognized DJ industry leader [Beatport](https://www.beatport.com), who has a global footprint of over 36M unique users, 465K DJ customers, 11M curated tracks supplied from 75K label partnerships, and New York-based online learning program, [Yellowbrick](https://www.yellowbrick.com), that grants the opportunity for 5 free scholarships, to be given away every year, to the NYU | TISCH x Billboards Music Industry Essentials program for Chaotic DJs holders.

"Although skateboarding is my life, I also have a lot of passion for music. Throughout the past couple of years, I've been getting more and more into EDM/House music and I aspire to be a DJ one day making my own playlists and sets. We founded Chaotic DJs so that others like myself can interact with one another remotely as a community and in real life at our exclusive events," said Huston.

The Chaotic DJs platform is revolutionizing the DJ and festival/events industry by incorporating Web3 technology with an upgradeable roadmap allowing it to keep the community updated, engaged, and rewarded. Comprised of four different animal avatars - a Tiger, Bunny, Wolf, and Ape, the collectible series of unique tokens come with real-world utilities, including:

- Music education and mentorship programs
- Backstage tickets to the top music festivals in the world
- Fully-paid invites to exclusive parties and events
- Studio recording and production sessions
- Day-in-the-life of high-profile celebrities and entrepreneurs
- Tickets to Chaotic DJs' festival and club partners' Metaverse parties
- Dashboard app and social music platform to upload content, interact with and discover new artists and music sets
- Digital Currencies and Merch Giveaways

“For whoever knows me, they can attest to my throwing some of the craziest parties ever. Along with our festival and club partners, Chaotic DJs will be doing exactly that multiple times a year and giving our community of established and aspiring DJs the opportunity to perform on the big stage. The greater the participation, the greater the reward. Expect the unexpected...it’s going to be Chaotic,” said Benlulu.
