

Shuzlan Energy Buckles Up To Lead EV Solutions Industry.

Shuzlan Energy Gears Up To Electrify Mobility

Mumbai, Maharashtra Jul 21, 2022 ([IssueWire.com](https://www.issuewire.com)) - With a passion for innovation coupled with the goal of reducing carbon footprint, **Shuzlan Energy** is determined to make the planet smarter and better. Dedicated to providing sustainable energy and economical solutions, **Shuzlan Energy** aims to power the nation with greener transportation alternatives.

With the opening of their exclusive showroom in Goregaon, Mumbai, **Shuzlan Energy** is geared towards accelerating India's EV shift in partnership with **Verde Mobility**. The objective of this partnership is to provide smart EV charging solutions across Maharashtra, Delhi, Karnataka, and Goa. **Shuzlan Energy** is the exclusive distributor of **Verde Mobility** for EV charging solutions and EV charging stations.

With emerging smart solutions, we are charging towards an advanced world. Investing in eco-conscious solutions and sustainable forms of mobility is the need of the hour. Since electric vehicles were introduced in India, their market sentiment has retained positivity in the last few years, especially due to them being affordable. Having a smooth and efficient EV charging infrastructure plays a crucial role in rocketing their demand and widespread adoption. With this in mind, we aim to electrify mobility by making EV adoption seamless and affordable.

Shuzlan Energy is on a mission to deliver sustainably smart solutions in an ever-growing market for electric vehicles that surpass contemporary industry standards and redefine mobility. With a plan to appoint distributors in every city in India in the upcoming months, we aim to be a (CPO) charge point operator with a target of 10000+ charge points and move towards greener mobility alternatives.

Shuzlan Energy strives to contribute toward a healthy future, cleaner air, and a greener environment for all. And we believe together we can achieve this goal. With the sole intent of giving back to the environment, we have pledged to plant one tree for every EV charger we sell.

Mr. Paresh Patel, the founder of **Verde Mobility**, is the biggest USP of the company. An experienced and passionate founder is the backbone of any organization. A founder's vision serves as the foundation of every company's success, whether it is Microsoft, Apple, or Tesla. And thanks to his vision and commitment, **Verde Mobility** the company has reached greater heights to power a sustainable world and make a difference in the lives of many.

Mr. Patel graduated with a Master's degree in Microelectronics or Semiconductor Physics. After working for 10 years in Silicon Valley, in 2001, he ventured into entrepreneurship. He built **System Level Solutions** starting with a staff of zero employees to three hundred employees. Since then, he has been able to create various business units in multiple sectors, delivering products and solutions to companies around the world.

Verde Mobility is a subsidiary of **System Level Solutions** and a leading Indian company in delivering world-class EV charging solutions. With years of research and development, **Verde Mobility** has developed a smart range of indigenous charging controllers. **Verde Mobility** is a pioneer manufacturer of hardware components along with flagship EV components such as OCPP controllers, and AC and DC charger controllers. The company holds the leading position in offering reliable EV solutions for a variety of applications. Along with outstanding cloud software, the chargers form part of an ecosystem with products like solar generation and transformer monitoring to deliver power to vehicles more efficiently. The company has curated remarkable solutions to make EVs a preferred choice for a greener, cleaner planet. With a mission to deliver smart solutions conforming to the vision of an **AtmaNirbhar Bharat** and **Make in India**.
