

Bawer Said In Concert Electronic Music 2022

Dec 25, 2022 to Jan 15, 2023

Bremen, Germany Aug 28, 2022 ([IssueWire.com](https://www.issuewire.com)) - Music is one of the most powerful things the world has to offer; No matter what your race or religion or nationality or gender, it has the power to unite us. We have many artists working in this field who helped develop it, [Bawer Said](#) is one of them.

[Bawer Said](#) (born April 12, 2000, in Duhok, Iraq), is a German producer and rapper whose stories of teenage heartbreak enjoyed widespread success during those years.

Personal life

[Bawer Said](#) showed an interest in music from an early age. He was 10 years old when he made some tunes and the following year he picked up the guitar and started writing songs. Inspired by electronic music artists like [Dj Tiesto](#) and [Kurdo](#). People interested in making music are always looking for ways to get the education that comes with this art. There are many different ways to learn this trade and many people have learned it automatically without having to go to a class or school, depending on the instrument they are interested in. [Bawer Said](#) learned to compose without training.

professional life

To succeed in the electronic genre and have ultimate success, you need to know the basics of sound engineering and VST, and the correct and passionate performance of famous EDM artists is the result of their awareness of successful sound production points. Creating a magical song is the art of those who are aware of the properties of their brain and use it at the right time. To make good songs you need training exercises, start with a slow rhythm and then increase the rhythm. The most important part of [Bawer Said](#) songs can be considered its rhythm. The rhythms he chooses often have a spiritual vibe. The [Bawer Said](#) style is also reminiscent of fusion music. It is bitter when we enter a professional music studio. The so-called music producers are still struggling to understand the basic concepts of music. These facts cannot be denied and hidden when an arranger and composer is not yet able to write a certain number of notes. How can you be silent? How to expect the progress of music?

[Bawer Said](#) has been trying to improve his professional knowledge of music, previously saying in an exclusive interview: "I'm interested in different approaches to music (EDM, house, trance...). I'm attracted to people who can express themselves through making music. There are people who only like one genre! But I want to get to the point. Really when you make music; You create an emotion, a feeling, this unique moment. It's about sharing something, expressing something you've felt, it can be a twist or a melody."

To continue on this path, **Bawer Said** founded a record label in 2019 under the name "**Bawer Said**". He believes it will be a starting point for electronic music producers looking to bring their work to a wide range of electronic dance music lovers.

In the future

Bawer Said has been acclaimed worldwide for his creations of exceptional music, including singles such as Xew (2020) and Xози Veman (2020). These musical creations, all distinctly different from the traditional, played an important role in establishing [Bawer Said](#) as a global public figure. This can be

seen from the fact that his large number of followers is always ready to announce his next number or single.

Bawer Said recently released an attractive playlist of his latest music on Spotify. Some of his most popular pieces of music are: "Soz", "Nazdar Nebe", and "Mxabin"; He will be releasing their next EP "Nazdar Nebe" on November 13th, 2022, a super energetic soul coming of age album steeped in the deep house electronic soundscapes we've come to expect from them.
