

Bulk Edit, Manage and Protect all your Shopify Store Data on the go, with Bulkify!

Dallas, Texas Aug 18, 2022 ([Issuewire.com](https://www.issuewire.com)) - Webuters Technologies Pvt. Ltd., a leading provider of technology and digital transformation services, today announced the launch of Bulkify, a new app that enhances the Bulk data editing experience of Shopify merchants by providing them with high-end features of bulk editing and history tracking under one roof.

Bulkify provides Shopify merchants with one place for bulk editing and managing their products, collections, metafields, as well as tracking changes and history of data. With Bulkify, merchants can bulk edit their products with variants and collections with metafields on-screen with ease, knowing that they can always revert to previous versions if needed. The insightful dashboard makes it easy to view data visually and check sync status. The app also makes it possible to export data to an email of your choice, even if it is not linked to the store.

Key Features of Bulkify

- History tracking of data to keep data protected all the time.
- View smart & custom collections from one place
- View products and variants from one place
- Bulk edit collections with metafields
- Bulk edit products with variants
- Maintain and use history of changes to products and collections
- Export products and collections to any email
- Separate UI (User Interface) for login and managing your data.
- Dashboard to view the statistics and sync status.
- One-point data access for a clear overview of your Shopify store data

"We're excited to offer Bulkify to Shopify merchants," said Webuters CEO Krishna Bhatt. "Bulkify provides a much-needed solution for managing products and collections in bulk and tracking the history of data, and we're confident that it will make the lives of Shopify merchants easier."

Bulkify is the latest addition to Webuters' suite of apps that are designed to make life easier for Shopify merchants. To learn more about Bulkify or to get started using it, visit <https://www.bulkify.cloud/>
