

Dutta Hospital Offers Effective and Affordable ENT and Paediatric Treatments

Bulandshahar, Uttar Pradesh Aug 3, 2022 ([IssueWire.com](https://www.issuewire.com)) - Dutta Hospital:- In the contemporary world, people face a lot of problems with their ears, nose, and throat. Due to certain causes, people have the following ENT issues:

- Ear infections
- Allergies
- Vertigo
- Tonsillitis
- Thyroid issues
- Sleep apnea
- Hearing loss
- Sinusitis
- Mouth/throat cancer

Usually, people ignore minor issues in their throat, ear, or nose. They rush to an ENT clinic or hospital when their problems are unbearable for them. Some of them avoid having treatment due to high treatment costs.

Dr. S K Dutta, the head of Dutta Hospital, states, “We know our society has some unprivileged people who usually do not afford expensive treatment for whatever the health problems they have. To enable all people of our society to treat their ENT issues, we take nominal charges for our treatments and support services. At our clinic, we help them have a better life after curing their ENT problems.”

Further, the head of Dutta Hospital says that they offer treatment and facilities to newborn children and kids under their Paediatric Unit/Department. He states that a patient or patient caretaker can call the hospital representative or visit the hospital website (<https://duttahospital.com/>) to book an appointment in the morning or evening session.

The clinic has all the requisite facilities from a private room to RO water and dispensary pharmacy. Patients can get their hospital or treatment bills from the centralised computer billing centre.
