**Miami, Florida Aug 5, 2022 ([Issuewire.com](https://www.issuewire.com))** - Fast Track Program To Launch New DJs On A Global Stage: Mentorship Available Through Gold Medal Skateboarder Nyjah Huston New NFT, Chaotic DJ's

Festival Community NFT project co-founded by Olympic Gold Medalist, Nyjah Huston, invests in aspiring DJ's through an educational network partnership with Yellowbrick and direct support from artists globally.

Chaotic DJ's, a cutting-edge NFT project that gives holders IRL/VR/AR experience as djs, allowing them to perform globally and remotely on massive stages, is now offering exclusively to their community, a fully-stacked music program with the capability to create a professional career as a dj with tour experience.

Before they can hit the international stage with some of the industry's most notable performers, like Diplo, David Guetta, and Steve Aoki, the program will support novice talent through a guided curriculum involving educational programs and mentorship from established DJs and artists.

Co-Founder of Chaotic Dj's and CEO of Peeqglasses, Daniel Benlulu, remarks "Our central focal point in building up the aspiring DJs is to provide the developmental tools and opportunities necessary. We are creating a community that will ultimately help our talent get those main stage bookings."

The project has officially partnered with educational creative course hub, Yellowbrick, whose partnership roster includes Billboard, Complex, Backstage, Rolling Stone, and more, led by renowned universities and industry experts. "Our talent will be supported, scheduling bookings at smaller venues across the US and festivals across the globe," says Huston.

The project is included on their website with a roadmap of the following:
