

## Get bulk fuel, lubricants and tank storage on-site with AFD Petroleum

**Edmonton, Alberta Aug 30, 2022 ([Issuewire.com](http://Issuewire.com))** - Bigger industrial operations and agricultural activities are always in the need of [bulk fuel](#) and lubricants on site. Considering their need and urgency, AFD Petroleum thrives to empower everyone with its independently sourced bulk fuel. Being the biggest independent supplier in Canada, the company offers bulk fuel, lubricants, and on-site tank storage systems for all organizations across western Canada and Alaska. The agency helps to provide solutions for on-site fuel problems and to overcome challenging situations while saving expenses for operations.

AFD Petroleum offers an efficient state-of-the-art delivery system through which customers can get bulk fuel, heavy-duty lubricants, grease, fluids, an on-site tank storage system, and many others. With the help of an online satellite tank level monitoring system, customers are getting accurate data round the clock. The 24-hours toll-free technical support is ready to offer quick resolutions for every problem. The customers can simply get a quote from the official website and proceed with purchasing.

Established in 1989, AFD Petroleum has been leading the market for many years now and it is well revered around the world for its highly effective services. It has also designed Portable Fuel Station (PFS) to help customers save both money and time. To know more, visit <https://afdpetroleum.com/>.
