

## How Hiradello Created "Talented Producer" Marketplace after "Beatunes Lable"

Since Talented Producer was founded, it has been home to the most talented and sought-after producers, songwriters, and artists in the music business.

**Aliso Viejo, California Aug 26, 2022 ([Issuewire.com](https://www.issuewire.com))** - **Hiradello** creating a lane for aspiring music creators to collaborate with the industry's biggest performers.

Hiradello steps into a new venture called **Talented Producer**, an online beat-selling marketplace. It's a digital platform for music makers to connect with musicians, producers, songwriters, music publishers,

and record labels.

Through Talented Producer, Hiradello looks to become a liaison between the unknown and the very well-known.

“I know what it’s like being a kid sitting in a room, don’t know if you got talent. The way that this world is moving, how do these kids get their music heard,” said Hiradello, a **Platinum producer** and songwriter who has worked with **Drake, Lil Baby, Gunna, Young Thug**, and more.

“This platform is a place where creators can communicate,” he continues. “I’m the head of the ship. But guess what, if you own a ship, you can communicate with me and you get better. I can introduce you to brilliant artists and tell them to look out for this guy or girl, and give that person a shot. That could be their biggest dream.”

Talented Producer expects to officially launch later this year, but several top-line musicians and producers have joined.

Hiradello predicted that "Talented producers" will be extremely rewarding and educational to members, who can keep all their music rights and revenue, set their own terms for pricing, and retain their publishing royalties. The platform won't take any additional income from subscribers.

“You’re learning financial literacy,” he said. “You’re learning about wealth and how to control money and the business. It’s your own business. It’s a place for their tools to get valued when they think they are not.”
