

## Your HVAC Repair in Los Angeles Just Got Easier With FREONX

**Los Angeles, California Aug 22, 2022 ([Issuewire.com](http://Issuewire.com))** - When it comes to repairing or replacing your Air Conditioning unit, it is hard to find a company in Los Angeles (or anywhere in that manner) that has genuine transparency about pricing and estimates of the repairs or installations. Freonx, a full [HVAC company](#) has been growing to change that.

Freonx offers services that include AC Repair, Furnace Repair, AC Replacement, AC Installation, Mini-Split Installation, more efficient thermostats, and Multizone VRF/VRV Systems. With the services, Freonx helps potential customers that need service or just want to check up on their current systems with a free inspection and estimates.

With this new extended offer, Freonx introduced free inspection and estimates on all services provided in the greater Los Angeles area. That means if you want to check your many year's old systems to see if you need maintenance or see if you can save money with newer systems. Now is the time to take advantage of this offer with transparent and honest service men. Freonx helps anyone who is looking forward to getting their Air Conditioning system examined.

[Freonx](#) has built a powerful local reputation in cities such as Glendale, Burbank, Pasadena, and the

greater San Fernando Valley for their transparency, expertise, and integrity. Technicians are equipped with the most recent technology to service the customer's overall needs and solve any issues that may be faced. With this said, Freonx is expanding its service throughout the greater Los Angeles area and wants to provide the same level of resource that is incomparable to the standard HVAC company that may be found. Don't miss out on this latest offer and check your overall estate AC unit for both home and commercial properties.
