

Anthology's Blackboard Learn Ultra Wins Gold Stevie Award for Postsecondary Learning Management Solutions

Anthology, a leading provider of education solutions that support the entire learner lifecycle, today announced that its Blackboard Learn Ultra solution was named the winner of a Gold Stevie® Award.

London, United Kingdom Sep 1, 2022 ([IssueWire.com](https://www.IssueWire.com)) - Anthology, a leading provider of education solutions that support the entire learner lifecycle, today announced that its Blackboard Learn Ultra solution was named the winner of a Gold Stevie® Award in the Postsecondary Learning Management Solution category in the 19th Annual International Business Awards® (IBA). The 2022 IBAs received more than 3,700 nominations from organizations in 67 nations and territories.

“We’re continuing to accelerate the development of new features for Learn Ultra with the goal of delivering the premier teaching and learning experience, and we’re honoured to see that work reflected in this recognition,” said JD White, Chief Product Officer at Anthology. “The LMS is at the centre of learners’ educational journey, and our team is focused on delivering innovation that fuels their success while also meeting the needs of faculty and institutions.”

Blackboard Learn is Anthology’s flagship learning management system, designed to support the student experience while enabling pedagogical best practices for faculty. Blackboard Learn Ultra delivers a simpler, more powerful teaching and learning experience that fosters student self-expression, offers a leading test-taking experience, and delivers the ability to surface actionable data insights that help learners, instructors, and institutions meet their goals. With a modern, intuitive, fully responsive interface, Learn Ultra better engages students, removes barriers for instructors, and clears the path to success.

Last month, Anthology announced a 46 percent increase in the number of courses using Blackboard Learn Ultra and a 30 percent increase in the number of institutions deploying Learn Ultra courses, year-over-year. Following the merger with Blackboard, Anthology tripled Learn Ultra's development resources and increased opportunities for client feedback in the development process. The expanded resources powered the largest Learn Ultra release to date, delivered in July.

“Statistics show that the stress and mental health experienced by students over the past couple of years has increased significantly. Products like Blackboard Learn Ultra are an essential tool for ‘normalizing’ the experience of students and helping them to reduce their mental health load. Congratulations to Anthology for creating a product that is making a significant impact in the lives of generations to come,”

commented one Stevie Award judge.

The International Business Awards are the world's premier business awards program. All individuals and organizations worldwide – public and private, for-profit and non-profit, large and small - are eligible to submit nominations.

“We're thrilled that we're able to return to celebrating Stevie winners in person this year,” said Stevie Awards president Maggie Miller. “This year's class of honorees are as innovative, adventuresome, persistent, and successful as we've ever had. We look forward to celebrating their achievements with them during our October 15th awards banquet in London.”

Details about The International Business Awards and the lists of Stevie Award winners are available at www.StevieAwards.com/IBA.
