## Money Transfer

The cashless transaction involved between two parties is called a money transfer. There are various channels through which one can transfer money. Our company provides an online mode for money transfers. Easy money transfer on JUSTFORPAY premises.

JUSTFORPAY features the 'Wallet to Bank' option which allows the user to transfer money online through their registered bank accounts on their device. Within a few years, UPI has become a prominent mode of transaction in India, from bill payments to money transfers UPI has an easy and quick payment solution. You can transfer money by entering your card details and all the transaction involved will be updated on your bank account simultaneously. JUSTFORPAY efforts to make your payment hassle-free and seamless with just a few taps on your screen.

## Advanced Domestic Money Transfer(ADMT)

NSDL Payment Banks emerged as ADMT (Advanced Domestic Money transfer) services to encourage the unbanked or underbanked society across India to facilitate money transfers. ADMT is a cash-to-bank account payment service provided through BCs(CSP) across India that brings transaction centers accessible to customers.

JUSTFORPAY in coordination with NSDL Payment Banks established many CSPs across the country to enable ADMT platforms. Using this platform users can transfer money instantly to any IMPS/NEFT to supported banks across India. This platform is quick and highly responsive all the transactions can be done in seconds. This platform provides 24/7 service for users.
