

Flint The Dog Store Launched Leak-Tight One-Handed Dog Water Bottle Collection

Singapore, Singapore Sep 13, 2022 ([IssueWire.com](https://www.issuewire.com)) - Flint the Dog Store launched [a one-handed leak tight dog hydration system](#). Dog parents just need to squeeze and water fills the bowl for their dogs to drink, and release and the excess water drains back into the bottle, without wasting a drop. [This improved version](#) has these features, comes in three different colors, and has a leak-tight seal that would guarantee water can't accidentally be squeezed out in the storage.

[The 1,8 Lt version](#) comes in 3 colors. Each comes with a carabiner to attach to a backpack, leash, or belt loop. All versions of this no-spill water bottle are perfect for giving your dog water in the car or on the go and the bottle even fits in your car cup holder.

Flint, the Dog's mission has been to give a significant impact on the lives of companion animals and their owners.
