

Kathryn Podgorny, MD, an Anesthesiologist with Midwest Anesthesia Partners, LLC

Get to know Anesthesiologist Dr. Kathryn Podgorny, who serves patients in Park Ridge, Illinois.

New York City, New York Sep 12, 2022 ([IssueWire.com](https://www.IssueWire.com)) - Dr. Podgorny is a well-versed anesthesiologist who serves her patients at Midwest Anesthesia Partners, LLC. Based in Park Ridge, Illinois. She offers various patient-centered services, including intensive care, pain management, and critical emergency care. She is also concerned with checking the stability of the vital signs of a patient

during surgery. This includes pulse, temperature levels, respiratory levels, as well as blood pressure. She meticulously conducts various tests to ensure that a patient is stable before, during, and after undergoing a surgical procedure.

Since its formation in 2012, Midwest Anesthesia Partners, LLC has delivered high-quality anesthesia services that are physician-led and value-driven. Superior clinical and operational outcomes are achieved by the collaboration of their partners across the entire organization. Their physician leaders work both in the boardroom and at the bedside, and as a result, they understand the needs of all stakeholders in the anesthesia service industry.

Back in the early days of her academic career, Dr. Podgorny graduated with her medical degree from St. Matthew's University School of Medicine in 2004. She then completed her residency in anesthesiology at the same educational venue.

In pursuit of clinical excellence, the doctor is board certified in anesthesiology by the American Board of Anesthesiology (ABA). As the certifying body for anesthesiologists since 1938, the ABA is committed to partnering with physicians to advance the lifelong learning and exceptional patient care. Its mission is to advance the highest standards of the practice of anesthesiology.

Anesthesiology is the medical specialty concerned with the total perioperative care of patients before, during, and after surgery. It encompasses anesthesia, intensive care medicine, critical emergency medicine, and pain medicine. Anesthesiologists have the primary responsibility of monitoring the patient's vital signs during surgery. In addition to basic measurements such as pulse, blood pressure, and temperature, they measure the patient's respiration.
