Dentistry, also known as Dental and Oral Medicine, is a branch of medicine that consists of the study, diagnosis, prevention, and treatment of diseases, disorders, and conditions of the oral cavity. Dentists diagnose and treat dental issues and help patients develop better oral hygiene regimens. They clean teeth, correct bite issues, perform surgeries and extractions and perform other duties to ensure that the teeth and mouth are healthy.

Happily married, Dr. Wessinger and her husband, Jeremy, have chosen to call the Asheville area home. They have a precious daughter, Karsen. She is a fun-loving girl who never lets her parents get bored! In 2014, they welcomed a son, Finn. He is always happy and loves to eat!

Dr. Wessinger also has a “furry kid,” her Siberian Husky, Kona. She and her family love to spend time traveling, watching Disney movies, supporting local charitable events, and exploring the outdoor majesty of the area.
