

## Mcmtech Awarded GSA Multiple Award Schedule (MAS) Contract

Government agencies now have cheaper, faster access to mission-critical asset, inventory and work order management solutions.

**Birmingham, Alabama Sep 19, 2022** ([Issuewire.com](http://Issuewire.com)) - (Birmingham, AL – September 19, 2022)  
Mcmtech is pleased to announce that it has been awarded the long-term Multiple Award Schedule (“MAS”) contract by the US General Services Administration (GSA) as a commercial technology vendor.

GSA’s Multiple Award Schedule is the largest and most widely used acquisition vehicle by federal government agencies, which means Mcmtech is now even more widely available for government customers seeking streamlined access to its solutions.

MAS provides direct access to products, services and solutions from certified industry partners that have been pre-vetted and pre-qualified at pre-negotiated rates. This contract signifies that the GSA has determined that Mcmtech's pricing is fair and reasonable, and the company is in compliance with all applicable laws and regulations.

“Much like Mcmtech solutions improve operational efficiencies by providing a tool to manage mission critical assets in federal, state and local governments, our inclusion on the GSA Schedule makes the acquisition of our software more efficient and streamlined,” said Tom Bartels, President and CEO of Mcmtech. “We went through a rigorous evaluation process to demonstrate our past and current performance, pricing and financial stability, and outstanding customer satisfaction in order to obtain our Multiple Award Schedule. I'm very proud of our team and excited about the opportunity to provide quick and affordable access to our radio-centric asset, inventory and work order management solutions and consultative professional services.”

The GSA contract awarded to **Mcmtech** (Contract # 47QTCA22D00CS) runs through September 5, 2027. Under the contract, agencies place orders directly with contractors; interagency agreements are not required. Agencies and contractors interested in partnering with **Mcmtech** through MAS should contact [sales@mcmtechnology.com](mailto:sales@mcmtechnology.com).

## About **Mcmtech**

**Mcmtech** is the leader in mission-critical asset, inventory and work order management software. With over 20 years of industry expertise, **Mcmtech** solutions are purpose-built for public safety's unique needs and include the only solutions in the market that can integrate directly with radio communications systems. Its web-based, enterprise-class software platform, called **Motiondeck**, powers flexible, scalable, secure solutions and can be cloud-hosted or installed on-premise. With well over 200+ systems deployed in 40 states and 14 countries, **Mcmtech** continues to implement new projects worldwide.
