

Operation: ADULTing™ proves just how modern our villages have become

Leveraging the power of Web3, Operation: ADULTing™: providing real-world experience to young adults in the metaverse.

Operation: Adulting
the official hypeOrg shaping future generations of innovators

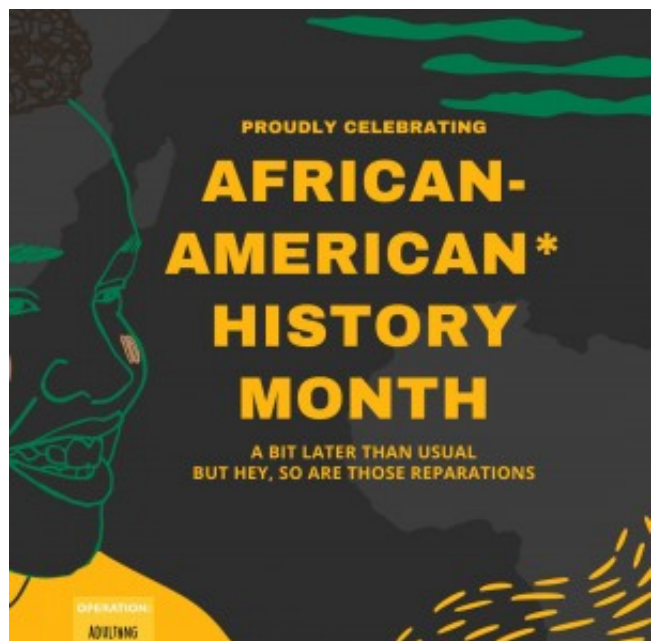

New York City, New York Oct 18, 2022 ([Issuewire.com](https://www.issuewire.com)) - At a time when many young adults are struggling to find their footing in the world, [Operation: ADULTing™](#) offers an immersive virtual reality experience cultivating their interests in STEAM fields while providing transferable career skills. With the help of partners such as [PATHFINDERS' Computer Science 4 All](#) and heavyweights in the metaverse

such as CONINVR's VR Networking, Operation: ADULTing™ provides a safe environment for young adults to learn and network with industry leaders in the midst of the Covid-19 pandemic. In addition to reducing the consumption of real-world resources, this innovative organization connects budding adults from underrepresented and marginalized communities with mentors in their dream career fields for real insight into what their futures potentially hold.

Reality television and digital media producer Martina Iwala is well aware of the hardships faced having emigrated to America at a young age. "Mirroring the dawn of dial-up, young adults are using web3 as a distraction from real-world issues, to find answers to life's questions or even just find their tribe. Operation: ADULTing™ harnesses the power of human connection by creating a bartering system between 501(c)(3)s and for-profit counterparts. With the goal of genuine systematic change, we've gotta learn the machine. One way to learn about the machine is to receive access to the parts, equipment, training manuals, etc. Getting access to the aforementioned involves opening a door or two which is why we value the ability to give these young minds a glimpse into their dream careers through our IRL: Day in the Life program. Connecting our participants to companies with leaders who have faced similar challenges to ours and are unafraid to share their "rookie mistakes", provides both a realistic perspective to a world otherwise left unknown while also providing a chance for businesses to learn what future generations will consider valuable."

Operation: ADULTing™ provides incredible opportunities for those with or without headsets while remaining one of the best-kept secrets of the metaverse. Join them Tuesday, October 18 2022 at 8 PM EST (5 PM PDT & 2 am Wednesday, October 19, 2022). Don't forget to save the date for their first annual Mixed Reality annual fundraising event taking place at CoExist GamingHouse on Saturday, November 19th, 2022 at 11 am.

Can't join IRL? Consider supporting Operation: ADULTing if you're looking for a way to make a measurable difference in the world. To learn more about our activities, volunteering, and donation tiers and to track your contribution, please visit our [contribution page](https://www.operation-adulting.org) at <https://www.operation-adulting.org>. With your help, we can build a better tomorrow.
