Ahmedabad, Gujarat Sep 1, 2022 (IssueWire.com) - Picsy, a leading name in personalized photo products, has recently increased the scope of its products and services by launching three new photo products. This move was made to serve its customer's needs better. Picsy now offers its clients the opportunity to purchase Framed Vinyl Prints, Acrylic Prints, and Canvas Floating Frames for their images, in addition to photo prints, canvas prints, photo books, and photo calendars.

Ms. Sarrah Pitaliya at Picsy commented, "You have been shooting images of all the nice things that

happen in life. You have very impressive work to display. You've been to various events, from celebrations of holidays and birthdays to get-togethers. So, what do you do? You can browse these photos on your smartphone and forget about them entirely in just a few days or design a lovely piece of décor that will rejuvenate your home."

Beginning with Framed Vinyl Prints, Ms. Sarrah begins her description of the three new products that have been presented.

"The [Framed Vinyl Prints](#) offered by Picsy are created uniquely for you, and they stand out not just for their stunning appearance but also for the meticulous attention to detail with which they are constructed. You may adorn your walls with any high-resolution picture from your collection using the cutting-edge Framed Vinyl Printing service that Picsy offers. You may order Framed Vinyl Prints for walls through the Picsy app, modify them in any way you see appropriate, and then have them delivered to your front door. This is all possible in a matter of minutes."

Because they are resilient, long-lasting, and aesthetically beautiful, Framed Vinyl Prints are wonderful additions to a home looking to spruce up its decor. Because they are coated in plastic vinyl, they have an appearance that exemplifies the concept of having an aesthetically attractive appearance. Framed Vinyl Prints are a one-of-a-kind piece of home décor that will bring your memories back to life. This is because these prints can capture even the smallest details, making them an ideal medium for this purpose.

You may place an order for Framed Vinyl Prints from Picsy ranging in size from 12 by 16 inches to 40 by 40 inches through the Picsy app. These prints can be any size in between.

After that, Ms. Sarrah describes the following product that Picsy is offering; [Acrylic Prints](#).

"This one-of-a-kind Acrylic Print is an original work of art in its own right, and it was painstakingly produced with you in mind, specifically. Pick any high-resolution photograph from your gallery and use it to decorate your walls using fashionable acrylic prints from Picsy. You can do this by uploading the image to your gallery. These prints have a thickness range from three to five millimeters and are available in various sizes. Give us the task of transforming your favorite photos into works of art, and sit back and enjoy the results."

Acrylic Prints, which can be purchased through the Picsy app, can be used to create gorgeous, durable, and water-resistant decorations and keepsakes. Because they are composed of exceptionally shiny glass, the Acrylic Prints manufactured by Picsy stand out among the other available options. Because of this appearance, the colors are more accurate representations of their real-world counterparts, and the details are more distinct than ever.

Regarding the size, you have several different choices open to you. Your decision should not only be based on the aesthetics of the room in which you intend to exhibit your Acrylic Painting but also on the message you wish to express to others. On the Picsy website, Acrylic Prints may be ordered in several different sizes, ranging from 12 by 16 inches to 40 by 40 inches.

After that, Ms. Sarrah talked about the third product, which was Canvas Floating Frames.

"You will be able to boost your interior design significantly with the assistance of our custom-made Canvas Floating Frames. A Canvas Floating Frame is a great solution, whether you want to print out a memorable moment tinged with incandescent emotion or display photographs from your most recent

trip."
