Carlsbad, California Jun 19, 2023 ([IssueWire.com](https://www.issuewire.com)) - The 76th edition of the Truth Tour is coming to Escondido, CA June 24th, 2023 and will feature nearly 30 world-class speakers, truthers, news personalities and more.

“It will be our biggest event to date,” said Truth Tour Founder, Lewis Herms, who began his tour in June of 2022 and has now held 75 events around the country over the past year.

“This event is about We the People, and our speakers we invited are all leaders, influencers, and many have very large followings to their respective social media channels,” added Herms who has dedicated the last 5 years of his life to this mission.

Attendees at this upcoming event will have the opportunity to meet the speakers, network, and get up to date on things they can do in their own community to help change the direction of our country.

Tickets are available free of charge at [TruthTour.net](https://truthtour.net) and there is a VIP upgrade available for \$129 that includes early access to the event, lunch, and extended networking.

For more information and to schedule Lewis Herms for an interview:
