

3rd INTERNATIONAL OPEN TOURNAMENT "BRAVE FIGHTER CUP" TAEKWONDO WT FOR KIDS, CHILDREN, CADETS, JUNIORS AND SENIORS

Chisinau, Moldova Oct 31, 2022 ([IssueWire.com](https://www.issuewire.com)) - KYCC - is a hybrid B2C / B2B project that makes cryptocurrency payments and investments easy, fast and secure. It is based on its own blockchain, which uses an advanced privacy algorithm and a creative dynamic supply chain regulation protocol.

The company KYC&AML.Ltd aims to help every client have the best experience with their products. Knowing that everyone has different needs and motivations and by designing with accessibility in mind, they deliver more relevant solutions and help make digital lives better.

With sponsorship, KYCC wants to achieve one thing: to support sports in Moldova and to help society to address the significant challenges austerity and the pandemic have caused so that future generations can thrive and positively contribute to society. Unfortunately in Moldova, not all young people have the same level of access to sports.

The importance of sports for kids cannot be underestimated. Sports are a great way for children to learn essential life skills that will serve them in later life, such as teamwork and cooperation. However, many children living in poverty lack the sports equipment and clothing necessary for organized games of

soccer, volleyball, and other activities.

KYC&AML.Ltd is doing everything it can to give these young people a chance to participate in sports, and to drive equitable access to youth sports and physical activity, by supporting children in high-need communities to achieve their greatest potential, on the field and in life. By supplying youth organizations with the gear they need, overhead costs are cut and more resources become available, helping children stay connected to their communities.

Those donations KYCC does completely free and allow programs to reallocate funds to lower registration fees, expand their scholarship offerings enhance their existing athletic program, and/or develop new ones.

This was made possible by the KYCC community. Cryptocurrency is significantly impacting investments in sports. The use of crypto in sports investing also brings transparency, convenience, safety, and security to investors.

Connecting through sport provides all people – with a sense of identity, pride, belonging, gratitude and joy. By keeping youth involved in sports KYCC and its community also feel as though they're helping to keep them off the street and busy, and out of trouble.
