

Chandler Mann II, OD, an Optometrist with Stone Oak Vision Source

Get to know Optometrist Dr. Chandler Mann II, who serves patients in Texas.

New York City, New York Oct 24, 2022 ([IssueWire.com](https://www.IssueWire.com)) - A licensed optometrist, Dr. Mann II is the Owner & Operator of Stone Oak Vision Source in San Antonio, Texas.

He brings his experience and cutting-edge diagnostic and treatment therapies to the Stone Oak area, offering a wide variety of eye care services, from comprehensive eye exams, specialized lenses to

combat computer eye fatigue, diabetic eye exams, glaucoma diagnosis/treatment, pediatric myopia management, and specialty contact lens fittings for patients suffering from keratoconus or irregular corneas.

With a passion for helping patients achieve the best refractive and cataract surgical outcomes, he will ensure that his patients receive cutting-edge care for any and all procedures needed.

Born in San Antonio, but raised in Houston, Dr. Mann II attended the University of Texas at Austin, obtaining a Bachelor of Science degree in Human Biology, as well as a Business Foundations degree. After honing in on the field of eyecare, he took an active leadership role in the UT Pre-Optometry Professional Society, eventually accepting his letter of admission to the University of Houston College of Optometry. While attending UHCO, Dr. Mann II took on multiple leadership positions in the Student Texas Optometric Association and the Student Practice Management Association.

After graduating from UHCO in 2019, Dr. Mann II joined the prestigious Berkeley Eye Center in Houston, Texas, gaining invaluable experience in refractive surgery (LASIK, PRK, ICL) management, post-cataract surgical management, and treating a wide variety of ocular disease/pathologies. Additionally, he took on a large interest in myopia management for pediatric patients and specialty contact lens fittings for patients with irregular corneas.

Board-certified through the American Board of Optometry, he is an active member of the American Academy of Optometry, the Texas Optometric Association, and the American Optometric Association.

Optometry is a healthcare profession that involves examining the eyes and applicable visual systems for defects or abnormalities, as well as diagnosing and managing eye disease. Optometrists are healthcare professionals who provide primary eye care through comprehensive eye examinations to detect and treat various visual abnormalities and eye diseases. Being a regulated profession, an optometrist's scope of practice may differ depending on the location. Thus, disorders or diseases detected outside the treatment scope of optometry (i.e. those requiring certain surgical interventions) are referred out to relevant medical professionals for proper care, more commonly to ophthalmologists who are physicians that specialize in the tertiary medical and surgical care of the eye. Optometrists typically work closely together with other eye care professionals, such as ophthalmologists and opticians, to deliver quality and efficient eye care to the general public.

When not helping provide the best care to his patients in the office, Dr. Mann II enjoys spending time with his beautiful wife, LeAnna, and his 2 dogs, Stark and Shiloh. He is an avid outdoorsman, loves golf, and enjoys rooting for his Longhorns and Astros.
