Saratoga, California Oct 21, 2022 (Issuewire.com) - Embrace Smiles Orthodontics is located on the border of Saratoga, Cupertino, and West San Jose. With state-of-the-art technology and procedures, orthodontics can help you achieve and maintain a youthful, healthy smile. Dr. Chong will guide you through facts of good oral hygiene and various treatment options like metal braces, Invisalign, clear braces, and others. Teens and adults can achieve a beautiful smile through personalized treatment and

crucial decisions of oral care. The team is committed to providing patients with a family-oriented, meaningful experience, whether you're opting for braces, dental exams, or any accelerated treatment. For more information, please visit: <https://embracedentalgroup.com/>

Seeing an orthodontist is a vital part of oral hygiene. A specialist not only works with teeth but also jaw and facial bones, which means procedures are beyond cosmetics. Using tools like retainers, x-rays, and braces, they can be able to detect and correct jaw issues that may not be visible on the surface, especially in growing children. Catching problems early can help prevent serious and costly procedures and align your jaws and teeth properly. A team of [South Bay Orthodontists](#) at Embrace Smiles believes a successful treatment experience isn't just about delivering gentle care but making patients feel confident that they can achieve a fun, confident smile.

Dr. Chong is experienced in the practice of [orthodontics in Bay Area](#), practicing the highest standard of dentistry and serving communities from all walks of life. The Embrace Smiles team is passionate about delivering patient-focused oral care so you can take wise decisions for your teeth and jaw. The treatment starts with a free initial consultation and if Dr. Chong finds a clear aligner or any other treatment suitable for you, the team will conduct a 3D scan and plan your tooth movements accordingly. Depending on your treatment, an initial series of aligners will be accompanied by refinement aligners to achieve the desired results.

After the treatment, Dr. Cherissa Chong and her team will take another digital scan of your teeth and give retainers. The team offers a one-of-a-kind Embrace Clear Retainer Program®, so you don't need to worry about losing or replacing your retainers. You can simply call them to schedule a consultation with Dr. Chong. A coordinator will present you with the best treatment and flexible financing options. From the moment you approach the office, they go the extra mile to make you feel comfortable and satisfied with your experience at Embrace Smiles. The goal is to not just give you the smile of your dreams but also leave the office knowing you got the best possible care.
