

Paul N. Afrooz, MD, a leader in facial plastic surgery

Get to know Dr. Paul Afrooz, one of the nation's best facelift and rhinoplasty surgeons.

New York City, New York Oct 4, 2022 ([IssueWire.com](https://www.IssueWire.com)) - Recognized for his compassion and artistry, Dr. Afrooz is an acclaimed Board Certified facial plastic surgeon serving an international patient base from his Miami office.

A consummate professional in the art of plastic surgery, Dr. Afrooz specializes in deep plane facelifts, deep neck lifts, rhinoplasty, and complex revision rhinoplasty. His medical spa offers the most advanced

non-surgical treatments as well, including filler, neuromodulators (Botox and Dysport), SkinPen, platelet-rich plasma treatments, and chemical peels.

Reflecting his passion for his craft, Dr. Afrooz's patients receive unrivaled care and attention. Following an extensive consultation process, Dr. Afrooz customizes an individualized treatment plan that addresses existing and anticipated signs of aging to restore youthfulness and confidence. Patients love the convenience of the concierge pre-op package which simplifies the logistics of securing medical clearance and prescriptions, and Dr. Afrooz's team also coordinates post-op nursing care as needed. The entire experience from beginning to end is seamless, and patients enjoy a comfortable recovery in Miami's mild weather.

Dr. Afrooz is globally sought after as a facelift expert, in part because his deep plane face and neck lift involve a dual-pronged approach that imparts natural and long-lasting results. "I independently re-drape and resuspend the superficial layer of skin as well as the underlying muscular infrastructure known as the 'SMAS', and I also often work in the deeper layers of the neck to remove unwanted fullness which otherwise causes unwanted sagging and volume in the neck. Then I take the extra step of harvesting fat and performing fat grafting to restore youthful volume to the face. This dual-pronged approach to my deep face and neck lift is arduous and exhaustive, but this extra investment of time and effort yields extraordinary and durable results," explains Dr. Afrooz.

Graduating with his Bachelor of Science degree from Cornell University, Dr. Afrooz went on to earn his medical degree from the Chicago Medical School. He then completed his residency in plastic surgery at The University of Pittsburgh Medical Center, well known amongst plastic surgeons as one of the oldest and most prestigious plastic surgery training programs in the world. Following residency, he was selected for a fellowship at the esteemed Dallas Plastic Surgery Institute, one of the most highly-coveted and competitive aesthetic fellowships in the country. Dr. Afrooz was selected from a large pool of national candidates on the merits of his research, technical skill, and the recommendation of his mentors and peers.

Dr. Afrooz is Board Certified in plastic surgery through the American Board of Plastic Surgery (ABPS). The mission of the ABPS is to promote safe, ethical, and efficacious plastic surgery to the public by maintaining high standards for the education, examination, certification, and continuous certification of plastic surgeons as specialists and subspecialists.

Recognized as one of the best facial plastic surgeons in the United States, Dr. Afrooz has served as invited faculty for the Cutting Edge Aesthetic Surgery Symposium, and the Dallas Rhinoplasty Meeting, and travels as far as China and South Africa to lecture on his facial rejuvenation and rhinoplasty techniques. He continues to serve as an annual faculty member for the Dallas Rhinoplasty Symposium, the most prestigious rhinoplasty educational symposium in the world.

Dr. Afrooz is a proud member of the American Society of Plastic Surgeons, The Aesthetic Society, and The Rhinoplasty Society—an exclusive membership reserved for the world's very best rhinoplasty surgeons.

Despite his busy private practice, Dr. Afrooz has authored 30+ articles and chapters on subjects such as the deep plane and SMAS facelift, neck lift, rhinoplasty, and revision rhinoplasty in peer-reviewed publications, including the industry-leading Journal of Plastic & Reconstructive Surgery. In 2021, Dr. Afrooz co-authored the acclaimed textbook "Masters of Cosmetic Surgery" which explores advanced techniques for popular facial procedures.

When he's not caring for patients, Dr. Afrooz enjoys spending time with his family, including his bulldog, and playing rock n' roll on his guitar.

His office is multilingual, serving patients speaking English, Spanish, French, Russian, and Hebrew. Insurance is not accepted but various financing tools are available, including PatientFi, CareCredit, and Alphaeon. Virtual consultations are available for out-of-town patients.
