

## The Dubai Hindu Temple is Now Starting to Use Qwaiting's Digital Queuing Technology

**Dubai, United Arab Emirates Oct 14, 2022 ([Issuewire.com](https://www.issuewire.com))** - The Dubai Hindu Temple has partnered with Qwaiting's digital queuing solution to control the crowd efficiently.

It will enable people to check in virtually and schedule their appointments online for visiting the temple. **Qwaiting**, a virtual queuing application, which allows people to check in to the queue from their mobile phones, will ask the devotees to visit the temple only when it's their turn. Online appointment booking will reduce the devotee waiting time in line and help control the visitor flow in the temple. This partnership will enable the temple to serve more people safely and efficiently.

The visitors will receive a text message or email to schedule their check-in time as per their preferences. The devotees can conveniently hold their place in the virtual queue by pre-booking the visit time slot in advance. During the check-in, they will be notified by Qwaiting, allowing them to reach the dedicated line for worshipping.

“The workers are still operating on giving the finishing touches to the amazing temple structure.” Qwaiting will help handle a huge number of visitors and control traffic congestion by enabling the visitors to add themselves to the virtual queues. They can see the queue status in real-time on their mobile devices.

Qwaiting will allow QR code scanning convenience to the devotees. Upon entering the mobile number, Qwaiting will generate an SMS ticket regarding their place in the virtual queue. It will notify the visitors via text message regarding their turn and any changes or rescheduling of visit times.

Qwaiting's Managing Director Mr. Neeraj Gupta said: "The smart virtual queuing solution will enable appointment scheduling in 30 different languages which means people throughout India and UAE can hassle-free check-in and visit for worship."

As of now, [pre-registration in hindu temple](#) is necessary before arrival and Qwaiting is helping devotees register themselves online for hassle-free temple visits using their mobile devices.
