

## True Original - the one technology that let trusted organisations

**Stockholm, Sweden Oct 6, 2022 ([IssueWire.com](https://www.issuewire.com))** - In today's digital world, it is more important than ever to have **secure documents** that cannot be lost or stolen. That is why True Value Software has developed True Original - the one technology that let's trusted organisations issue animated, blockchain-secured diplomas, certificates, awards, and badges. With True Original, your future documents will be safe and impossible to falsify. Contact us today to learn more about this groundbreaking technology!

In an increasingly digital world, the importance of original **digital documents** has never been greater. In business, for instance, digital documents can provide a record of agreements, contracts, and transactions. They can also be used to store sensitive information, such as customer data or financial records.

Indeed, **digital documents** are becoming the norm in many industries. However, they are also susceptible to tampering and alteration. This is why it is essential to ensure that digital documents are true originals. A true original digital document is one that has not been altered in any way and can be verified as such.

This verification can be done through a number of means, such as digital signatures or fingerprinting. By ensuring that digital documents are true originals, we can protect them from fraud and ensure their reliability.

If you're looking for a powerful, all-in-one software solution to digitize all types of official documents, True Value Software is a perfect choice. Used by universities, non-profit organizations, compliance departments, survey companies, governments, healthcare facilities, media outlets, security firms, and banks, our software is trusted by some of the biggest names in the business.

The TRUE REST API was created to help companies integrate TRUE into their digital document management systems. With the TRUE REST API, companies can securely and easily connect to TRUE's system to retrieve documents and data.

The API provides access to TRUE's powerful document management features, including search, storage, and collaboration. The TRUE REST API is constantly being updated with new features and improvements, making it an essential tool for companies that rely on digital documents.

If you have any suggestions for how we can improve our API, we would love to hear from you. Contact us today to learn more about the TRUE REST API.

So what exactly can True Value Software do for you? Well, here are just a few of the many use cases our customers have found for our software:

- Creating digital copies of important documents for safekeeping and easy access
- Converting paper surveys into digital format for analysis
- Generating digital records of interviews and meetings
- Storing and managing large quantities of digital documents
- And much more!

As you can see, there's really no limit to what our software can do. So if you're looking for a reliable, easy-to-use solution to digitize all your important documents, True Value Software is the obvious choice. Contact us today to learn more!

The [True](#) Original platform provides a unique and trustworthy way of issuing animated, blockchain-secured diplomas, certificates, awards, and badges.
