

Alabama has the hardest rappers out says CEO Kodak

The Birmingham Music Plug Founder popular saying is Alabama has the hardest rappers out

Fresh faces of Alabama 2022-2023
Really been non stop grinding! Keep
up the good work y'all 🏆
#Pluggednnye

Los Angeles, California Nov 25, 2022 (IssueWire.com) - The Birmingham Music was started back in 2016 when the music scene in Birmingham had just popped off from Northside Weezy, Murc Camp, Doonki Wild, Real Records, & more. While getting the platform started up an upcoming teenager from Birmingham, Alabama by the stage name YBN Nahmir was on his way to being the world's next viral sensation, and that's what piped up The Birmingham Music Plug brand. Everyone wanted to know where this kid was from and what was going on in his City. At the time it wasn't much content promoting the Music community besides the old footage you can bring up from HoodZone Productions Magic City Classics YouTube videos but wasn't much content of the upcoming Birmingham Rap scene being promoted like other markets.

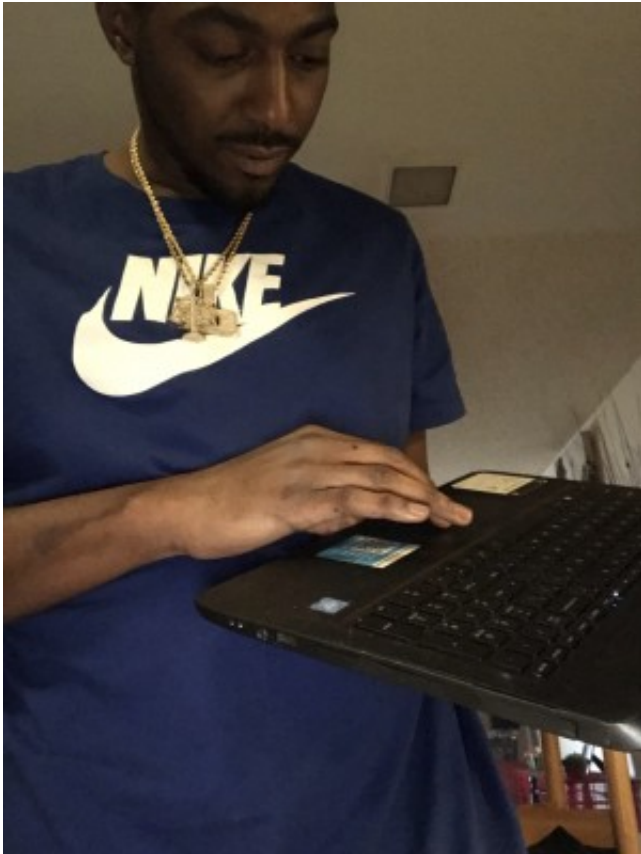

CEO Kodak decided to start researching and blogging all viral artists who were coming from Birmingham. As Luh Soldiers, GBF King, and TLE Cinco were going Viral & signing deals The Birmingham Music Plug brand was taking off, dropping one of the most Controversial Top rappers lists in 2018 that DJ Akademiks posted after YBN Nahmir ranted about putting the light on Alabama and being number 1.

That Set the Bham Music Plug as the go-to Promo and Connection for Birmingham and surrounding markets in the industry.

Being the first to introduce half of the artists from Alabama who is now household names locally and worldwide The Birmingham Music Plug founder CEO KODAK has solidified his company position as an official gatekeeper out of Alabama.
