Los Angeles, California Nov 21, 2022 (Issuewire.com) - Aureo Designs on the Shapeways Marketplace: www.shapeways.com/shops/aureo-designs

Available in several sizes, variations, and materials ranging from plastics to precious metals such as gold, silver, and platinum - these artistic novelty items make great corporate gifts and sit well on desks, mantles, bookshelves, coffee tables, vanities, near jewelry boxes, etc.

Designer Giacomo Aureo states that “Unlike a maze that forces decisions, in a labyrinth, the only choice is whether or not to turn back before reaching the conclusion, in this case, the center.”

Aside from the central pillar and open corner mark, these Pyramidal Labyrinths are comprised of only one singular wall of varying heights.

Simple, distinct, and enduring, this collection is deeply geometric, centered, fractal or self-similar, symbolic, scalable, and semi-symmetrical.

Each piece in the Labyrinths Collection exhibits proportions that touch close to Phi, or the golden

section, a mathematical ratio described as both the Divine Proportion and the Ecstasy of Nature.

Giacomo Aureo mentions, "The nub-marks accentuate the near-Phi cascades, and although they're hardly noticeable at arm's length, they can be felt to add an interesting touch of gold, regardless of the printed material."

Giacomo Aureo acknowledges that "Considering the heavily near-Phi infused constitution of these designs, and depending on the material chosen, subtle energy (or chi/charge) may emanate from these art pieces - with potential to be felt like "spiritual gravity."

Be drawn into these "Labyrinths Worth The Stare" for they're eternal concepts that shall stand the test of time.

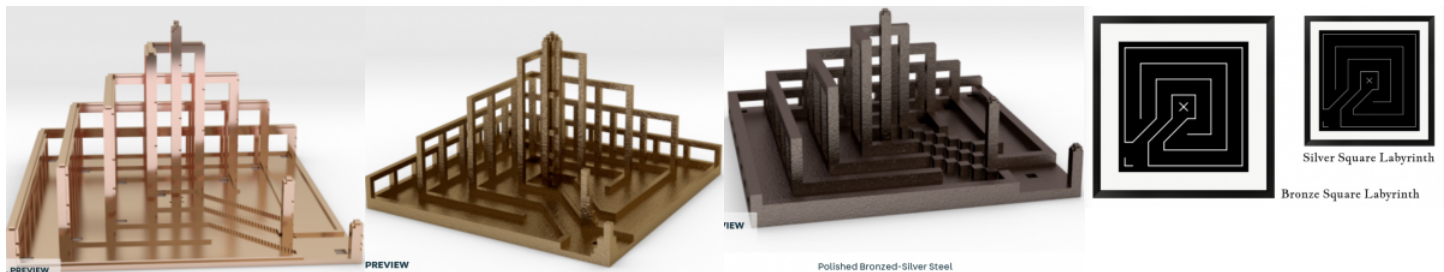

Available precious metal sizes range from 30x30x15mm to 89x89x55mm, and larger pieces are available via special order commissions.

Designer Giacomo Aureo also adds, "Hotel and restaurant interior decorators may be interested in the collection of Fine Wall Art that fits especially well in hallways, washrooms, and lobbies."
