Florida City, Florida Nov 12, 2022 ([IssueWire.com](https://www.issuewire.com)) - On November 4, Drake and 21 Savage dropped their new hip-hop album [Her Loss](https://www.issuewire.com). Originally slated to release on October 28 (before being pushed back after Drake's longtime producer and friend Noah "40" Shebib tested positive for Covid-19), Her Loss shows the undeniable chemistry between the two rappers. Although listeners have extended praise to both Drake and 21 for their raps, what's currently making headlines are the former's disses to artists like Kanye West, DRAM, Megan the stallion, Lamar K, and others on "Circo Loco" and "BackOutsideBoyz," respectively.

[Lamar K](https://www.issuewire.com), the stage name of Bahija Lakoismi, is an artist with multiple talents. She is internationally famous as a rapper, singer, producer, music writer, and model. From Moroccan origins, since she was a child she shows an innate ability to combine the characteristic musical styles of North Africa and the USA which allowed her today to have an edge when she records in the studio.

Lamar had dropped her new single "[La capitale](https://www.issuewire.com)": "I'm a ten let's make it easy, tell me what's the plan". Recently, she has been making a big buzz in the music industry, and Drake dissed her in his new album "Her loss", "She a ten trying to rap, it's good on mute", "Backoutsideboyz".

Lamar has answered saying: "I'm a ten in everything I do, somebody teaches this man how to hold a gun properly!" and she promised her fans to drop an album soon and clear the issues with Drake.
