

## Erawat Pharma Limited Selects BatchMaster ERP To Improve Production

Central India's leading pharma manufacturer, Erawat Pharma, implements Batchmaster's ERP to improve production.

### ERAWAT PHARMA, IMPLEMENTS BATCHMASTER'S ERP TO IMPROVE PRODUCTION

**Indore, Madhya Pradesh Nov 23, 2022 ([IssueWire.com](https://www.issuewire.com))** - BatchMaster added yet another distinguished name to its clientele, as the company extended its services to a leading pharma manufacturer from central India, Erawat Pharma. Based in Indore, Madhya Pradesh, the company ranks among the top capsule manufacturers in the world & the second largest in India. The company's

successful customer base, locally and internationally too, undoubtedly talks about its vast operational capabilities.

The company was using Tally for meeting their needs; however, their growth outgrew the existing system; making them experience numerous setbacks like increased ideal time of WIP resulting in delayed & inaccurate deliveries of the orders. This challenge of performing their routine functionalities manually led them to find a solution that can handle and streamline their business automatically.

To meet the production, QC, and compliance issues, they wanted software that has the ability to generate labels such as raw quarantine labels, QC release labels, Intermediate stage labels, Shipping labels, etc. throughout the system. Moreover, the company also wanted to have complete automation within the manufacturing unit to ease up the execution of complex tasks right from raw material procurement, to scheduling to production and delivery.

The said pharma company evaluated several options like NetSuite before their selection, and finally, found all the desired functionalities in BatchMaster [ERP with Tally Integration](#). Functionalities like accurate costing, automated production scheduling, and planning, precise traceability, superior formulation management, compliance with all the regulatory requirements, et al were the reason for them giving a thumbs-up to BatchMaster.

Speaking on this new association, **Mr. Sanjay Panjwani**, Managing Director of **BatchMaster Software Pvt. Ltd.** extends sincere gratitude to the pharma company for partnering with them and ensuring a smooth implementation.
