

Physio Supplies Canada is Making Patients Life Comfortable

With a vision to provide high quality home healthcare products to customers at reasonable rates, Physio Supplies Canada is making people's life more comfortable and healthier from almost 10 years by delivering products to doorstep.

Mississauga, Ontario Nov 2, 2022 (IssueWire.com) - As you know that in today's hectic and stressful life, a person quickly falls in the grip of many types of diseases and above all his routine is such that he cannot go to his doctor every day, that is the reason why these days the demand for medical equipment used at home has increased incredibly in the market. Access to good quality, affordable, and appropriate health products is indispensable to advancing universal health coverage, addressing health emergencies, and promoting healthier populations.

The Medical Devices segment in Canada is projected to grow by 7.43% (2022-2027) resulting in a market volume of US\$13.68bn in 2027. The homecare Medical Devices market is expected to grow at a [CAGR](#) of 8.9% from 2022 to 2032.

There are many companies in the market who are providing such equipment but their prices are very high. But Physio Supplies Canada is one such company which is providing medical equipment to consumers at reasonable prices.

[Physio Supplies Canada](#) has been a leading distributor of Pain Management, Medical Equipment, and other clinical supplies, since early 2012, with one goal in mind – to provide high-quality products to its valued customers, who enable end consumers to live healthier, more comfortable lives.

Since its inception, Physio Supplies Canada has prided itself on delivering quality products along with a level of personalized service that's unmatched in the industry. Its approach is simple – it creates true partnerships with the customers to help them consolidate their vendor base, reduce shipping costs and boost their bottom line.

The company's wide selection of products meets the highest standards for quality, giving the customers peace of mind that the supplied products will perform as expected, thus minimizing unnecessary maintenance and service calls.

Physio Supplies Canada has a range of medical equipment to choose from. Whether you are in need of homecare medical equipment or run a professional medical clinic, you will find a wide range of medical instruments. Like one can purchase pain relief products which include a TENS machine, Hot and Cold Therapy, Tropical Analgesic, etc. In the Physio supplies Clinical Modalities, [Cervical Pillows](#), Moist Heating Pads, Massage Table, Massage Gel, Massage Lotion, Braces & Supports, Electric Massagers, Kinesiology Tape, Exercise Bands, etc. can be purchased.

In many treatment therapies, medical practitioners suggest acupuncture besides daily doses of medicine. In the Acupuncture products range, Cupping sets, Acupuncture Needles, and other accessories are there to choose from. If we talk about Chirp Products offered by the company, then Treatment Paper Rolls, Traction devices for clinics, Anatomical charts, and models are available.

Only massage can do wonders for many diseases, so a wide range of massage gels and oils are available besides Linens and Disposables. Since the skeletal system is the base of the body, any injury or deformity causes utmost turmoil. In view of these conditions, the company has come out with many products. For bone-related issues there are many orthopedic braces like Ankle support, Knee support, Back support, Hip braces and support, Sporlastic braces and support, shoulder braces and support, Cervical support, and Elbow Support. Hand and Wrist support, Thumb and Finger support, Orthopedic braces and support.

If you run a clinic or hospital, you can purchase Physiotherapy tables, Chiro tables, Massage tables and accessories, Traction tables and Flexion stools, Practice stools and carts, parallel bars, storage racks, and training stairs at reasonable prices. For varicose veins patients, compression stockings are also available.

That is not all, the EMS machines are available for muscle injury, muscle spasms, and blood circulation.

Intended for pain management, muscle stimulation, facial palsy and incontinence treatment, IFC machine for inflammation, Shingles, nerve damage, etc are also available. Among several medical instruments, [TENS machines](#) are in high demand for their quick relief action. Transcutaneous electrical nerve stimulation (TENS) is a pain-relieving technique that employs low-voltage electrical impulses. A TENS unit is a battery-powered gadget that sends electrical impulses to the surface of your skin through electrodes. The electrodes are implanted on or near nerves that cause pain or trigger points.

TENS is a non-invasive pain treatment technique. It can be used alone or in conjunction with a prescription or over-the-counter pain reliever.

TENS treatment has been used or is being explored to treat chronic (long-term) as well as acute (short-term) pain. TENS has been used to treat a variety of ailments, including:

- Osteoarthritis

- Fibromyalgia
- Tendinitis
- Bursitis
- Labor agony
- Low backache
- Pelvic discomfort that persists
- Diabetes-related neuropathy
- Peripheral arterial disease is characterized as the "hardening of the arteries" that supply blood to the organs.

To your knowledge, the TENS gadget is roughly the size of a tiny cell phone and is powered by a battery. The gadget has many sets of electrode wires and termination pads. The electrodes connect to the gadget on one end and are hooked to about 2 inches by 2-inch pads on the other. Each pad has an adhesive backing and is applied to your skin along nerve pathways in the area to be treated.

The gadget generates electrical energy pulses. Pulses can be modified in terms of strength, frequency, duration, and type (burst or continuous). The parameters of the equipment are determined and adjusted by a doctor, physical therapist, or acupuncturist.

The company also offers insurance-covered products for its customers. These include [TENS Machine](#), orthopedic braces, Hot and Cold Therapy, Compression stockings, Therapeutic Mattresses and Support, Cervical pillows, and Back braces and supports. The competitive prices and wide product selection will help cut costs without compromising the quality of patient care. The company ship most orders within 48 hours and have a low rate of backorders, so the customers will get the products they need, when they need them, to help keep their business running smoothly. Customers can order online any time of day or night for added convenience.
