Moments of prayer and worship stir faith and position the global audience for a marvelous time with the Lord.

Also, viewers get to watch testimonies of people whose lives were changed in the past editions of the Healing Streams Live Healing Services with Pastor Chris. Their enthralling testimonies are reminders that Jesus is alive, and that He is the same yesterday, today, and forever, and He is still doing miracles!

A testimony recently featured on the program is that of 15-year-old Prisca, who was contending with threatening health complications. She experienced body pain, hair loss, and blood cell and immunological abnormalities, among other symptoms. Her condition deteriorated badly. Her legs were swollen, and she could barely stand on her feet. Prisca was totally dependent on a wheelchair for mobility. First, she was diagnosed with malaria and typhoid fever, but after treatment commenced, the symptoms she experienced worsened. Attempting several hospitals, she was further diagnosed with systemic lupus erythematosus after so many tests were conducted. Despite the medical procedures and treatments she underwent, there was no improvement. Believing in a supernatural intervention, Prisca and her mother participated in the July 2022 Healing Streams Live Healing Services with Pastor Chris, and her story was changed from pain to praise. Today, she is healed and completely restored.

Calling in from India to share her expectations, Dr. Seena says, "I expect my son to rise up and walk!" Her son, Nitra, has been diagnosed with cerebral palsy and is confined to a wheelchair; but he is next in line for a miracle, come to this edition of the Live Healing Services. Glory!
