Anzio, Roma Dec 7, 2022 ([IssueWire.com](https://www.issuewire.com)) - [Magnus Group](#) seeks the honour of your presence at its “[2nd Edition of Virology World Conference](#)” (VIROLOGY 2023) during [June 21-22, 2023](#) in [Rome, Italy](#). The congress will move with its primary theme “***Combating Global Pandemics through Virology Research & Innovations.***” which will emphasize the latest trends, recent breakthroughs, and solutions adapted to the challenges faced in the field of virology and allied fields.

The [virology global Consortium](#) will explore, define and attempt to provide a forum for sharing and discussing all the latest advancements, breakthroughs, the possible [benefits and drawbacks of vaccinations](#), and will address issues related to disease prevention and control. Plenary talks, keynote sessions, and oral and e-poster presentations will keep you abreast of the recent trends in the field of virology. The discussions on viruses at this global consortium will unite a unique panel of researchers, scientists, virologists, vaccine developers, and academicians to share their novel findings and deliberate on the recent trends in the field of [virology](#). We'll also look into new technology for analysing viruses and

massive datasets, as well as [diagnostic tools](#) for enhancing public health.

[Viral Infectious Diseases Meetings](#) | [Viral Non-Infectious Diseases Conferences 2023](#) | [Viral Infection Conferences](#) | [Virus and Infections Conferences 2023](#) | [Vaccines Conferences](#) | [Vaccines Events](#) | [Virus Conferences](#) | [Covid-19 Conferences 2023](#) | [Covid-19 Meetings](#)
