DDMGROUP INTERNATIONAL, Outdoor Furniture Supplier to Hotels and Architects Worldwide Launches USA Quick Ship Program.

Eye-Catching Quick Ship Outdoor Furniture Designs That Are Shaping Projects And Transforming Spaces In USA.

Ft. Lauderdale, Florida Dec 5, 2022 (Issuewire.com**)** - Long lead times on preferred hotels, architects, and designers' choices of designer outdoor furnishings have been an issue for years. The appeal and availability of DDMGROUP INTERNATIONAL'S quick ship outdoor living have spurred innovation from designers, properties, and yachts around the world, along with international hotel brands, purchasing companies, and yacht builders from Europe to California and from the Miami Design

District and onto the Caribbean.

For many architects & designers, the most portable, durable, and easy-to-clean alfresco furniture for the money begins with a frame made of stainless steel or aluminum with a weather-resistant coating. On seats, woven synthetics or solution-dyed acrylic fabric upholstery can add comfort when metal slats or mesh needs a softer touch.

DDMGROUP INTERNATIONAL has teamed with designers, including David Di Meco (daviddimeco.com) to produce The Made in the USA, Spazio European Soft Seating, a line of soft seating furniture wrapped in colorful colors by Sunbrella Fabrics that are comfortable on land or in the water.

DDMGROUP INTERNATIONAL is also offering its Modern French Contemporary Collection within its USA-stocked Quick Ship Offerings. The French Contemporary Collection is crafted of premium outdoor materials, intricately woven all-weather materials, hand-crafted aluminum, and performance outdoor fabrics.
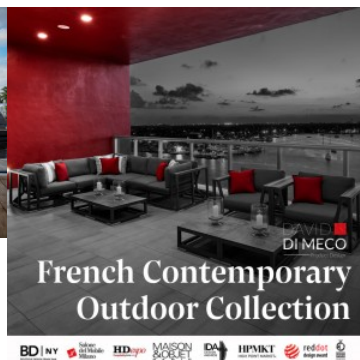

All USA quick ship pieces are built to endure with unrivaled quality and value and ship from their Southeastern USA facilities.
