Riz Mirza has trance-channeled numerous Spirit Guides who have healed people in over 2500 live weekly channeled gatherings called the Circle of Light, with over 8,000 hrs of recorded sessions in over a decade. He will be hosting a Circle of Light at the 2023 Conscious Life Expo on Feb 12th, 2023 in the Marina Room from 12-1:30. Riz Mirza was born with this natural gift and began his early years as a heavy metal musician from NYC, and now is one of the most sought-after Trance Channels and Psychic Mediums and is an author of channeled books, has been on countless podcasts, and radio shows and will be interviewed by George Noory on Gaia Feb 2023. He has been compared to Jane Roberts channeling Seth, and Esther Hicks channeling Abraham. In the past, he has channeled for Ram Dass in his home. He has channeled up to 5 hours at a time at his longest channeling sessions to sold-out yoga studios in the LA area, Hawaii, NY, Nevada, Colombia, India, Egypt, Bulgaria, Ireland, Japan, and more. Here is an article written where he is listed among the [Top Ten Trance Channels of All Time](#). Together with his wife Oriah Mirza, they have led shamanic journeys around the world helping heal thousands of people in sacred ceremonies that focus on trauma healing four times a year.

From his wife, Oriah, "Some people think our work may be one of the oldest forms of healing services on the planet, or it can be considered one the most timeless or even futuristic forms of healing and spiritual help for humanity. In this current day and age, people are just starting to understand the powerful nature of spiritual healing work and shamanism, most have lost sight of our ancestral roots, and they do not fully understand what it is. We are grateful to add Riz's trance channeling and psychic mediumship and my intuitive empathic abilities to help guide people through these incredible times. We have stuck it out when not one industry recognized our work as a career path. We have fought and forged to stand our ground in what we believe in. We are not a religion, we are not a non-profit. We are people helping people."

Riz and Oriah Mirza founded Red Eagle Universal Inc, which is a full-fledged communications and media portal as well; they create all their own content, books, and more. Riz is also a musician and he produces his own music when he is not traveling. People of all backgrounds including celebrities, psychologists, therapists, teachers, and addiction center therapists come to the [Circle of Light](#) to sit with Red Eagle publically and then with Riz at a later time in private sessions to learn how to enhance their results with their clients in what they call 'alternative therapy'. They have said that their clients are pressuring them for more elevated and non-traditional forms of healing.

Riz Mirza is one of the **most unique and mystical Trance Channels and Psychic Mediums** because he has so many psychic gifts and modalities that he was naturally born with. His wife wrote a lengthy Q & A, answering many questions people have about her husband, and you can read it [here](#). On his [website](#), you can find his many video channels, and master classes videos, many free channeling, interviews, podcasts, transcripts, books, video podcasts with his wife. You can learn about the retreats they lead every year.

A client testimonial, "Riz has an incredible gift that is truly life-altering. His energy is palpable and his attention to each individual in a session is extraordinary. I was refreshed with a new sense of freedom and perspective on life after the incredible journey Riz gave our group when he channeled Red Eagle."- Jen S
