

Tate John Egger, DO, an Anesthesiologist with MyMichigan Medical Center Midland

Get to know Anesthesiologist Dr. Tate John Egger, who serves patients in Midland, Michigan.

New York City, New York Dec 8, 2022 ([Issuewire.com](https://www.issuewire.com)) - An adept anesthesiologist in practice since

2001, Dr. Egger works at MyMichigan Medical Center-Midland.

MidMichigan Medical Center-Midland is a 324-bed, non-profit hospital in Midland, Michigan. It is a member of MidMichigan Health, an integrated health delivery system affiliated with Michigan Medicine, the health care division of the University of Michigan.

At the start of his academic career, Dr. Egger earned his Doctor of Osteopathic Medicine degree from the Michigan State University College of Osteopathic Medicine. He then went on to perform his residency in anesthesiology with Michigan State University Associated Hospitals, including Sparrow Hospital.

Successful in his field, the doctor is board certified in anesthesiology by the American Osteopathic Board of Anesthesiology (AOBA). The AOBA is an organization that provides board certification to qualified Doctors of Osteopathic Medicine who specialize in the administration of anesthetic agents and perioperative medicine.

On a professional level, Dr. Egger is an active member of the American Society of Anesthesiologists, the Michigan Society of Anesthesiologists, the Michigan State Medical Society, and the American Osteopathic Association.

Practicing medicine in Michigan, he is affiliated with MyMichigan Medical Center Gratiot, Beaumont Hospital-Farmington Hills, Mercy Health St. Mary's Campus, MyMichigan Medical Center Clare, and Sparrow Hospital.

Anesthesiology is the medical specialty concerned with the total perioperative care of patients before, during, and after surgery. It encompasses anesthesia, intensive care medicine, critical emergency medicine, and pain medicine. Anesthesiologists have the primary responsibility of monitoring the patient's vital signs during surgery. In addition to basic measurements such as pulse, blood pressure, and temperature, they measure the patient's respiration.
